Mmmmgh~♡ That was a good rest! Good as new!

I've decided to go back to doing nothing. Going 'out there' just causes problems.

That 'Dead' Rainbow Dash can deal with the Master herself. It's her funeral.

Pshaw~ I'm sure she's well practiced in those anyways!!

So now that you can fly, what are your plans? Perhaps visit Cloudsdale proper, or perhaps add a huge open room in the TARDIS so you can fly around without having to leave? (Bonus points if the room can simulate wind and weather conditions)

How do you keep track of all the different reality versions of the same ponies? Do you have a pandimensional Rolodex or something?
It's really simple. I'm a Time Lord. I'm sensitive to this sort of thing, and I can tell what belongs to me and what doesn't.

All dimensions have their own energy. It's like a special signature, and I can read them and tell who belongs where. This is mine, out of place in this ponyverse.

So I ke, what exactly IS the Time Vortex? I mean I don't know if you can explain it or not but it just seems a bit confusing at times. I mean from watching you I understand a little bit just from putting two and two together. But why does it do bad things when you look into it?
Well, I'm glad you asked!
The Time Vortex was created by the Time Lords to connect all points in time and space.
The rules of physics do not apply to the vortex, thus having E=mc2 as it's equation between energy and matter.
Exposing oneself to the vortex is dangerous, unpredictable, and can even be fatal.

This time Lorak has grew up in constant closeness
to the vortex gaining some resistance
to its dangerous effects.
But when shown the
true gateway of the vortex,
we aren't just looking
We're connecting to it,
and it shows our minds the
entirety of time and space
What is, was, will be...
All of it rushing into your head at once.
For me, it was terrifying.

Should probably find a way to keep your wings from pomfing on command like that, too It's the only physical attribute you have over The Master

I'm Snowing!!!

Doctor your'e not snowing, your e molting your wings everywhere because you haven't cleaned yourself up yet It's like having dandruff fall of your head constantly I suggest you fix up your hygiene Nopony is going to like a dirty molting TimeLord You need to shower, groom and preen your wings

You're not snowing *rolls eyes* You re molting
No Doctor, I believe that's mo ting You should reall y get that checked
It's NOT snowing, you moron! You need to be groomed! NOW!
Party Poopers

I don't think your wings are supposed to do that, Doctor Didn t you ever learn about preening? The fetlocks are cute though

Um, you should really consider preening your wings doing that doesn't look all too good

You really should preen, it's rude to shed like that

Umm, snow? I'm not sure that's snow Looks more like feather dandruff You should probably preen them more often

Ya know, grown stallions really aren't supposed to molt that much You should get that checked out

How can I put this delicately you smell like 211 of the dirtiest seagulls in the world crammed into a small cardboard box with only a decaying corpse to snack on for a month

So wait, how does the Tardis feel all about this? About how you've changed, or gone back or whatever. She has a soul right? She can talk to you right? You can understand her .. Right?

Does the TARDIS ever talk to you? If she got her own consciousness she has to communicate somehow with you

How is the TARDIS responding to your change of behavior? I thought you and it were supposed to have a sort of psychic bond or something

Hey Doc, aren't you concerned that the TARDIS might act out of your control, due to your current "condition?" After, she told you herself when you said she never took you where you wanted "I always took you where you needed to go."

Hey doc. Just wanted to tell you you're not a bad person. You're trying your best to get through all the shit life throws at you, just like everypony else, and get that. People get in your way, and things go wrong. You're not evil, you're just deprived of the justice in the universe everypony else seems to have access to, and support your efforts in any way. Can't keep on kickin' on. Ta Ahoppes!
You love derpy, right? You love her, but you don't want to love her. That's why you're so tense and angry. You destroy yourself, doctor. You need help. But we can't help you if you want not. So do you want some help? Before saying no, please try to understand why, say that. Thanks.
I understand. You're not evil, you're not good, you've simply become amoral, entirely neutral. You wish to not help or hinder anyone, and say that's the most reasonable thing for you to do. You are the Doctor, after all. If you don't want to help people anymore, it's not like we can just make you want to help us again.

I wonder Doctor, what is it that you truly fear What was it that you witnessed that made you run? A man whose name could turn away entire armies sentient or otherwise a man who would face demons gods and demi-gods without flinching Someone who faced complete removal from history itself without hesitation Surely someone like that isn't afraid of death. So WHAT is it that caused you do run in such fear?

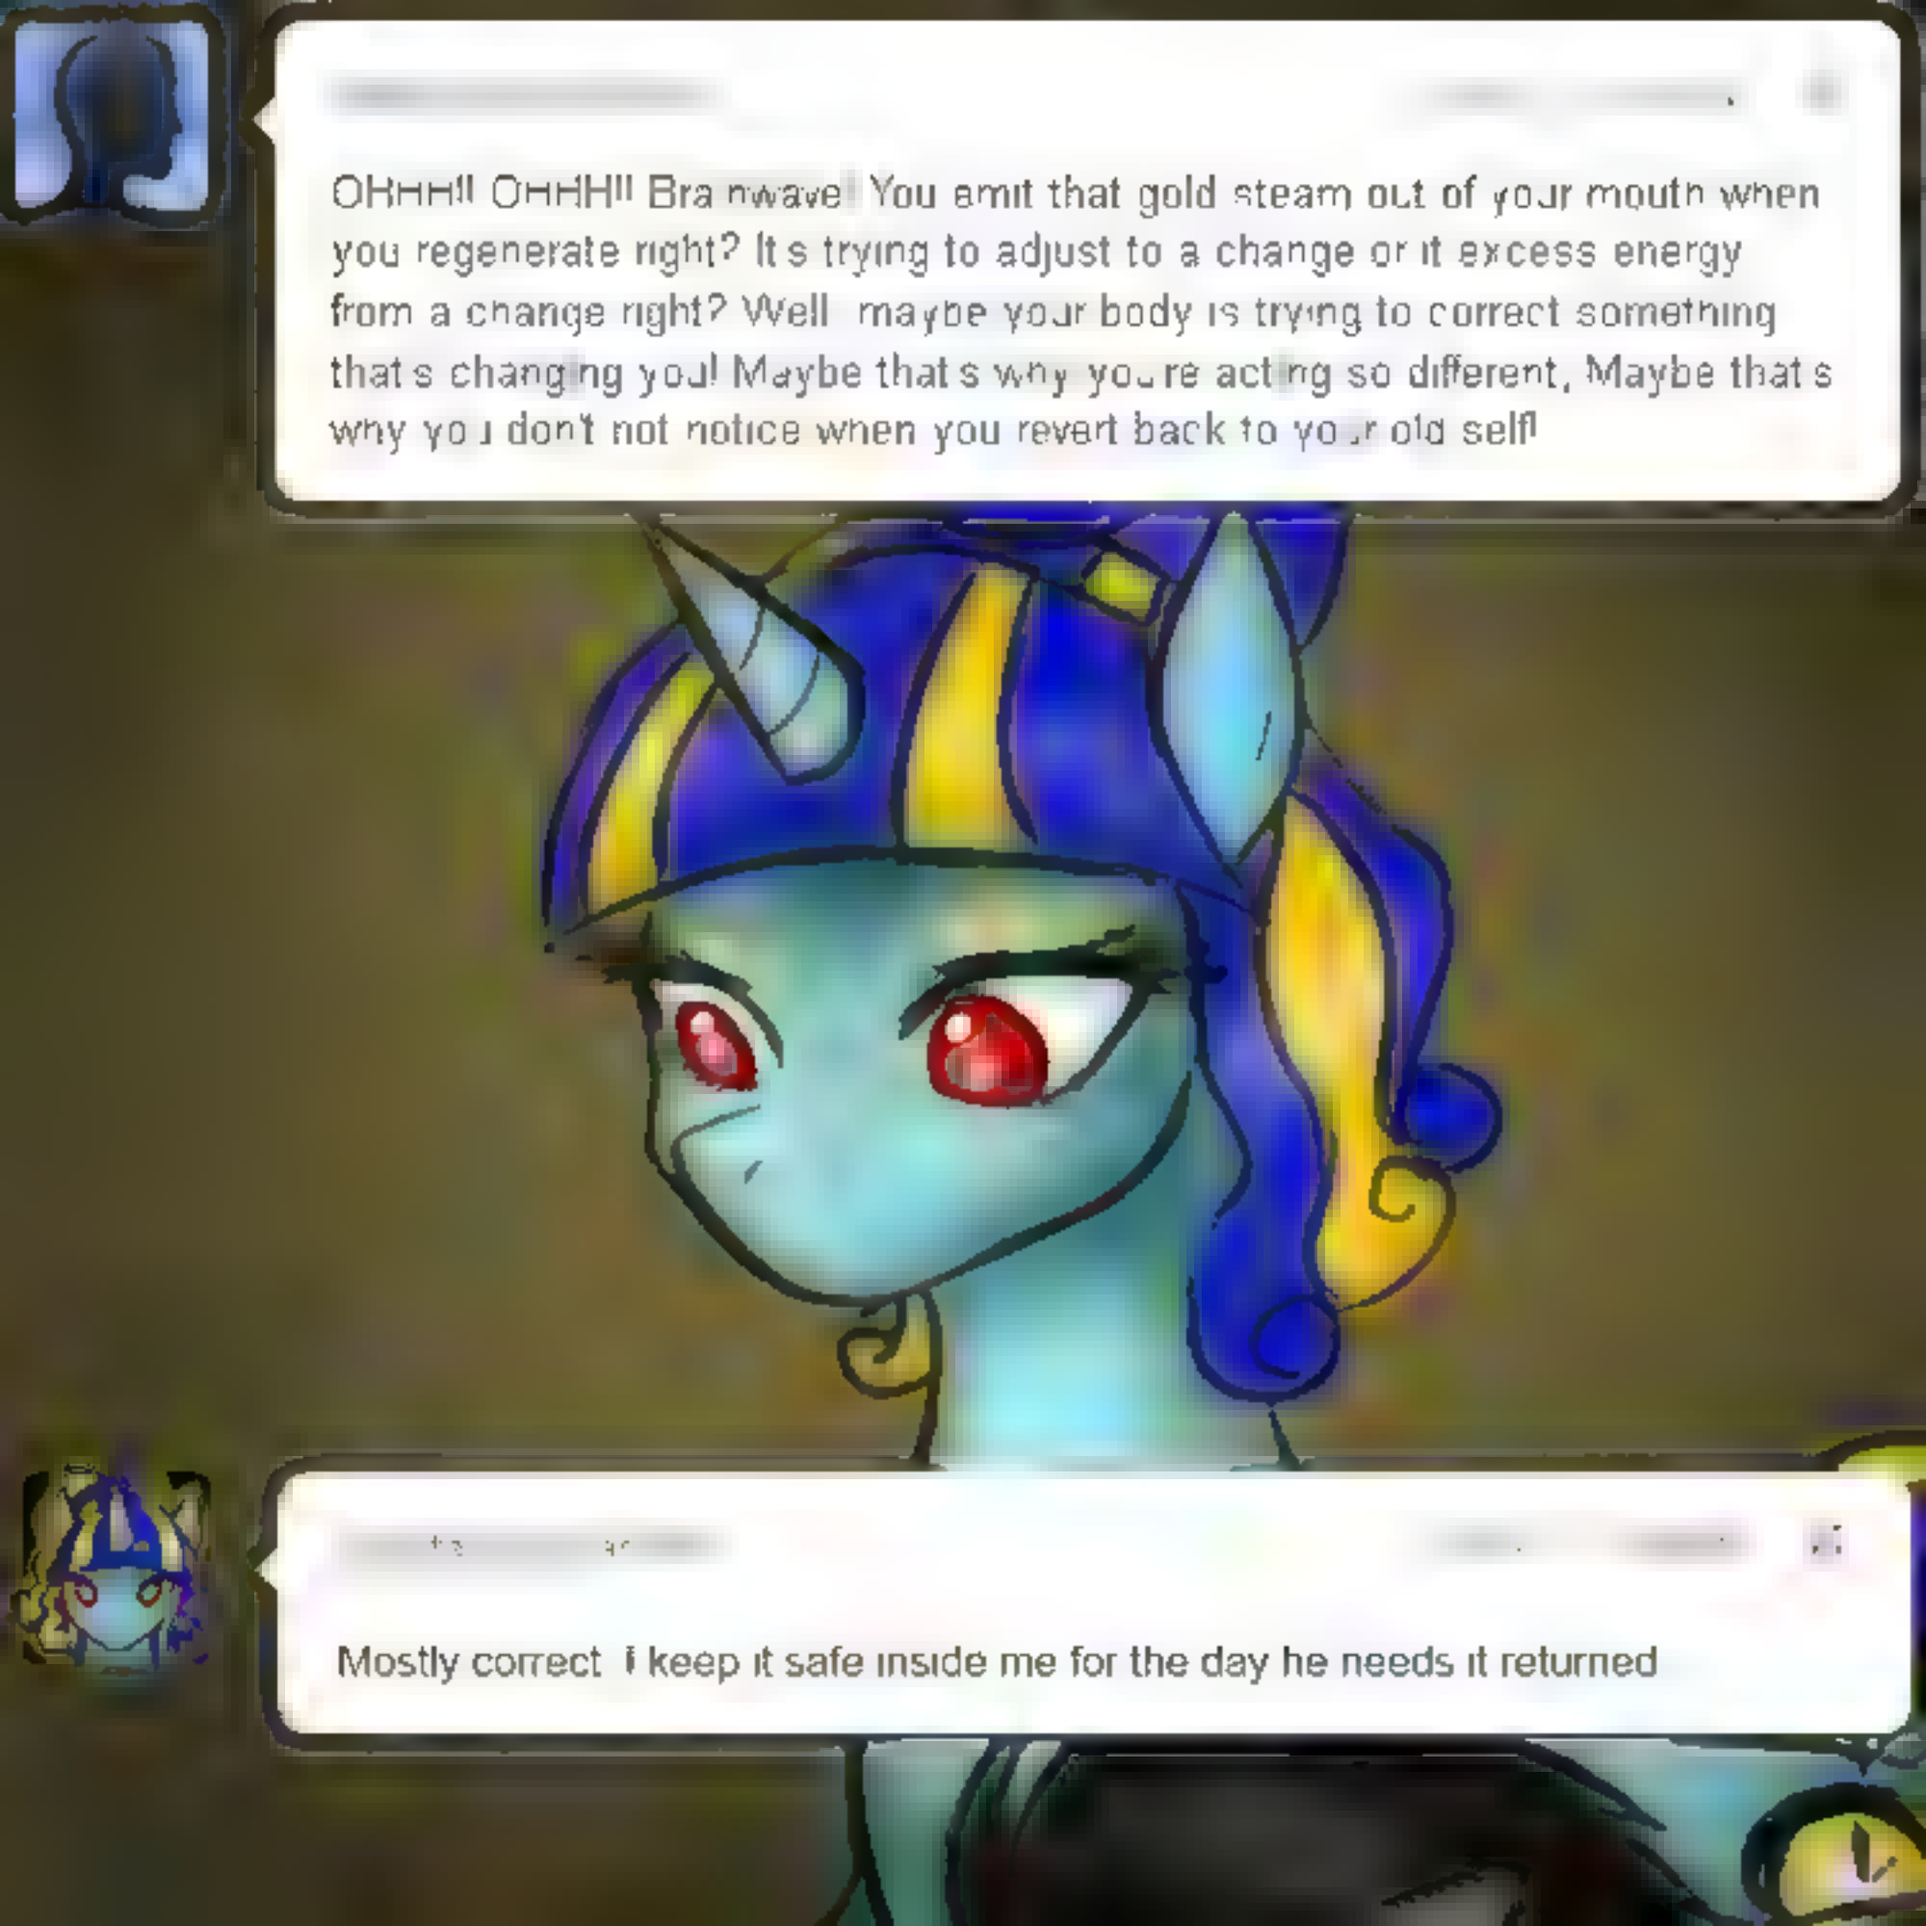
You know Doctor she's watching over you No matter how much you harm her and insult her, she still cares for you And I know even if you keep trying to lie to yourself, you love her too Hopefully looking into your TARDIS will fix you up and prove to you that you care

Hhey mysterious hourglass pony are you going to help the Doctor? Do you think you could fix him?

Aanata the hourglass, is a part of the tardis, isn't it? Is she trying to save you?
I am trying to protect him

Seriously doc what is that weird stuff you keep breathing out everyt me you have a panic attack, and if you don't believe me just check your last couple of posts As the say a picture is worth a thousand words

He wont see it He can't The perception on his mind is too great What you see expelled is his life energy, struggling to destroy the disease inside him

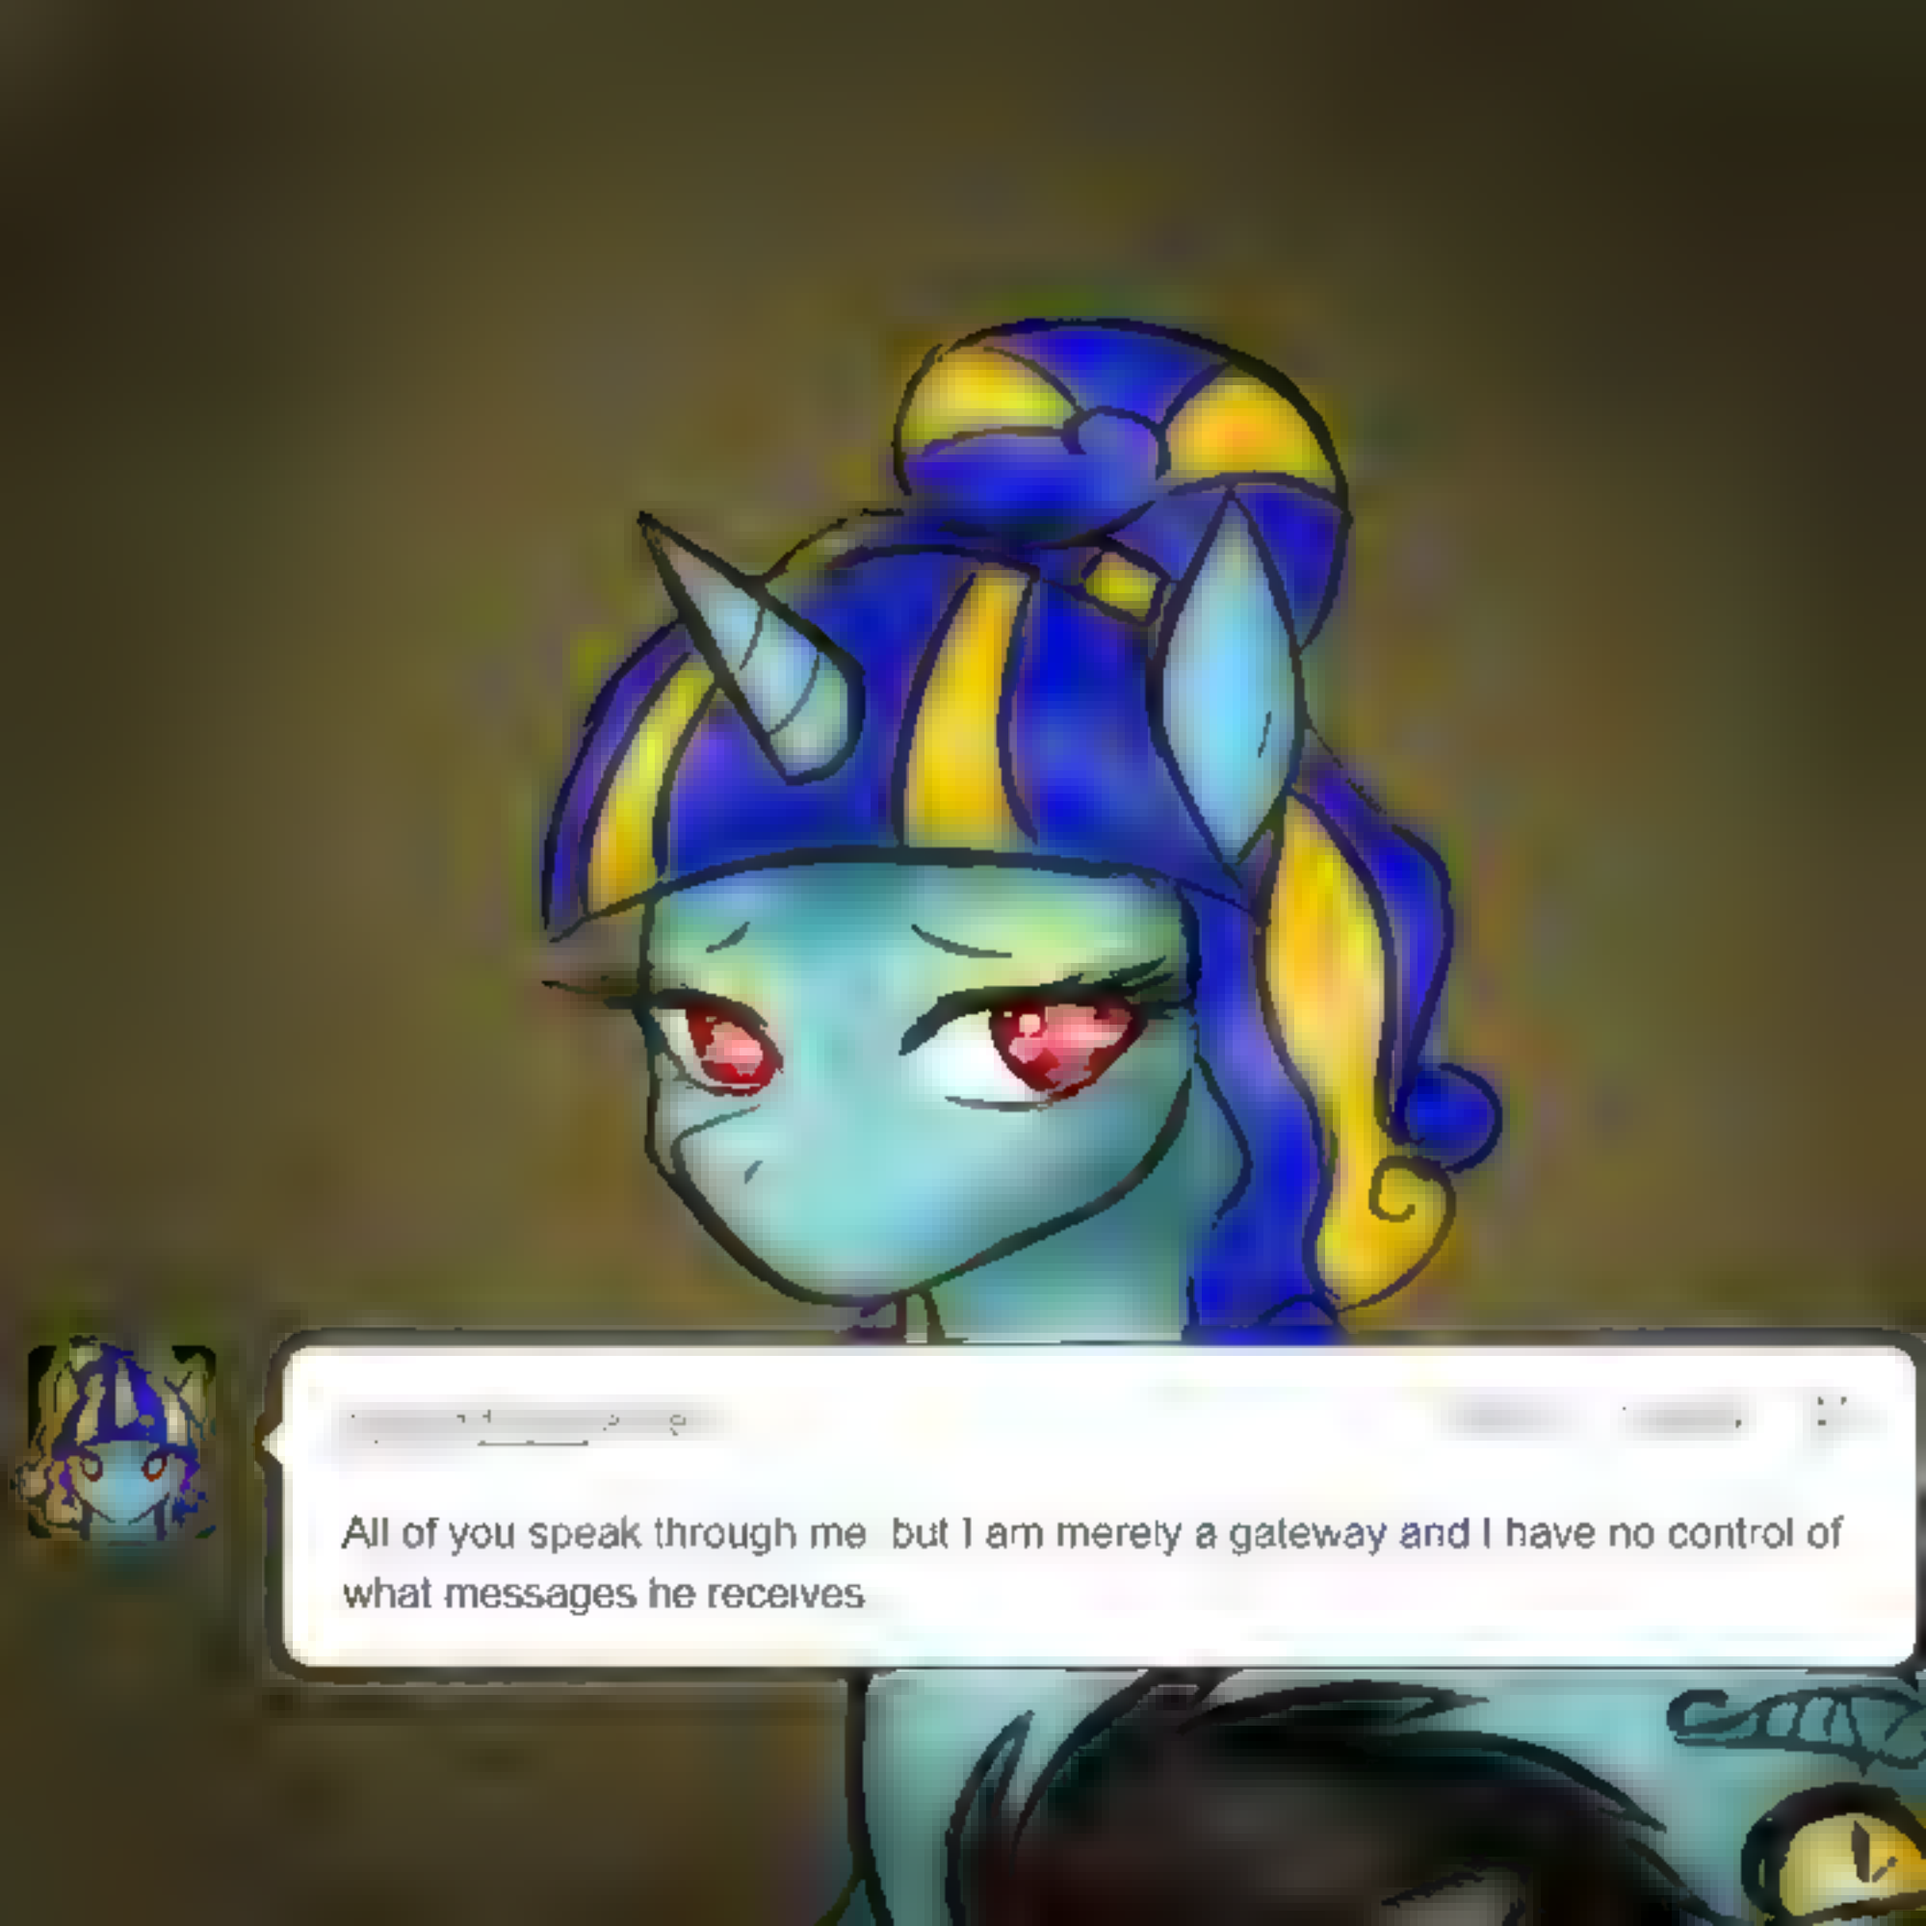


OHHH!! OHHH!! Bra nwave! You emit that gold steam out of your mouth when you regenerate right? It s trying to adjust to a change or it excess energy from a change right? Well maybe your body is trying to correct something that s changing you! Maybe that s why you re acting so different, Maybe that s why yo u don't not notice when you revert back to yo r old self!
Mostly correct i keep it safe inside me for the day he needs it returned

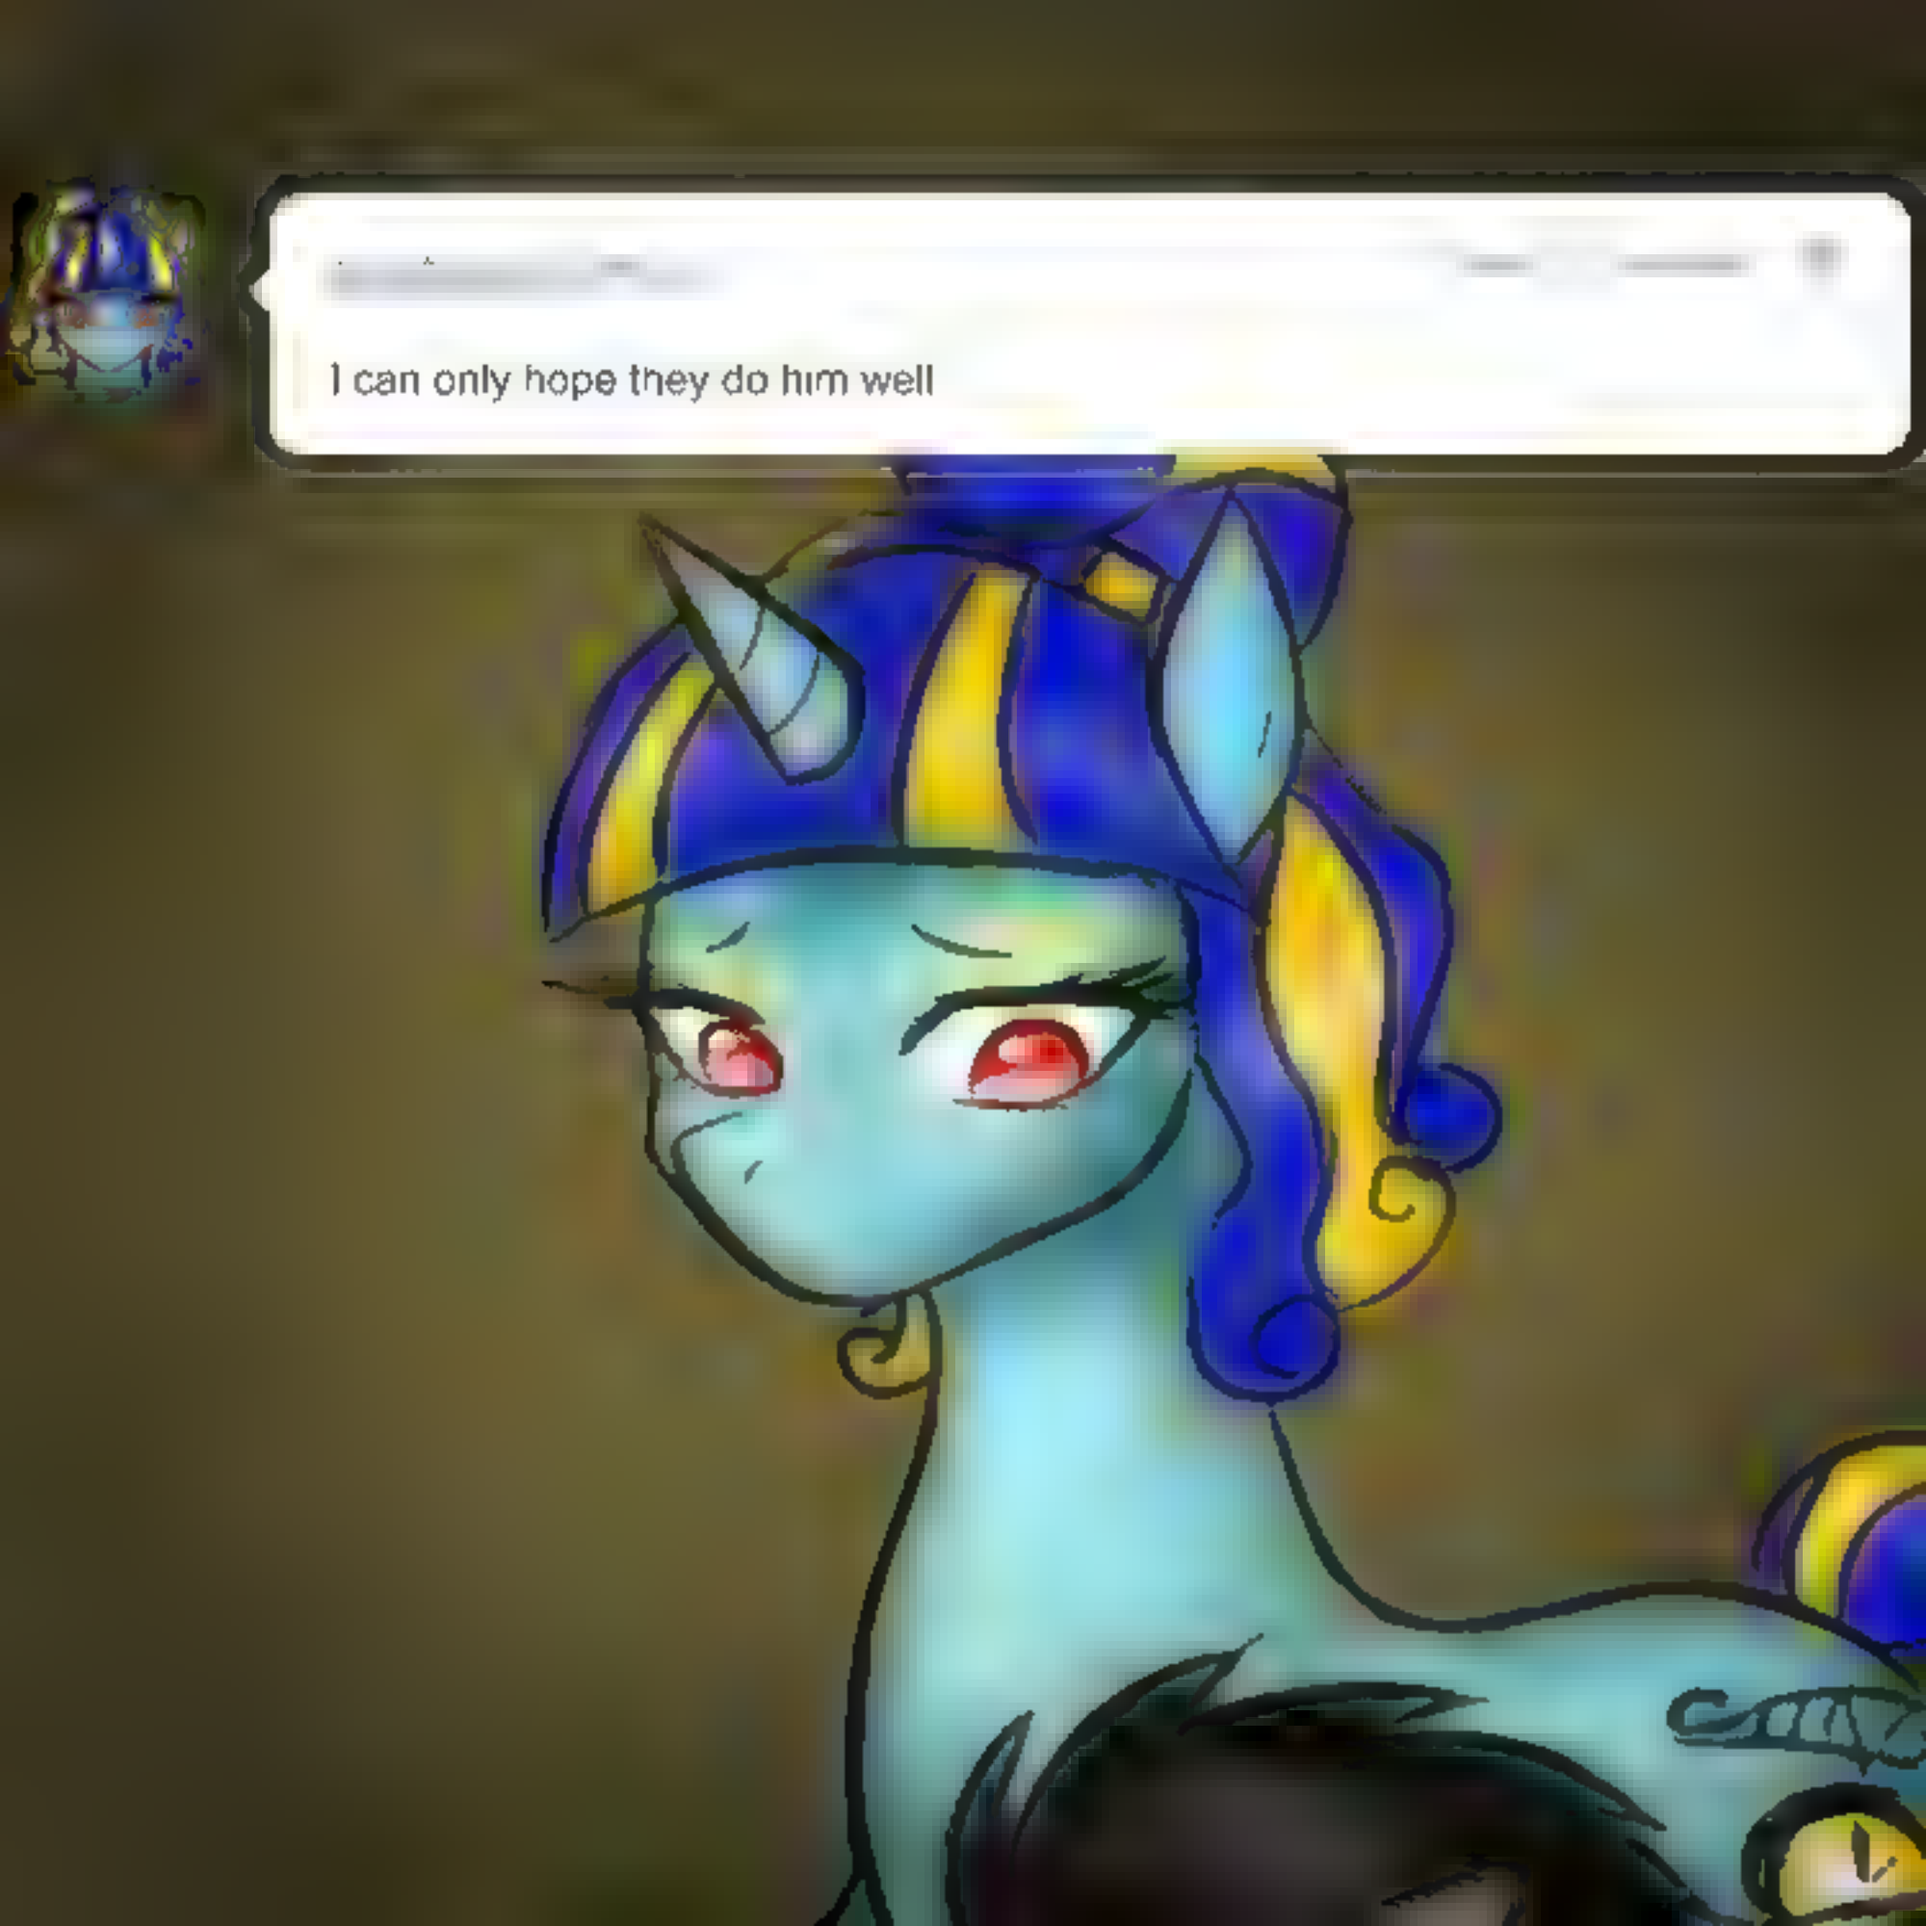
Hey isn't the TARDIS supposed to take you where you're needed? So why has it been allowing you to fool around instead of taking you back to Discord's realm?!
Where he is needed is not as important as where he is safe right now. I have seen the consequences of taking him where 'he was needed', and the result is death before his time

Why would unsettling questions be emerging form your TARDIS's heart? Is that how you've been hearing us all along?

I cannot speak to him but I am the bridge that allows all of you to speak with him The bridge was left open by his previous companion, and I altered it to speak to his mind



All of you speak through me but I am merely a gateway and I have no control of what messages he receives



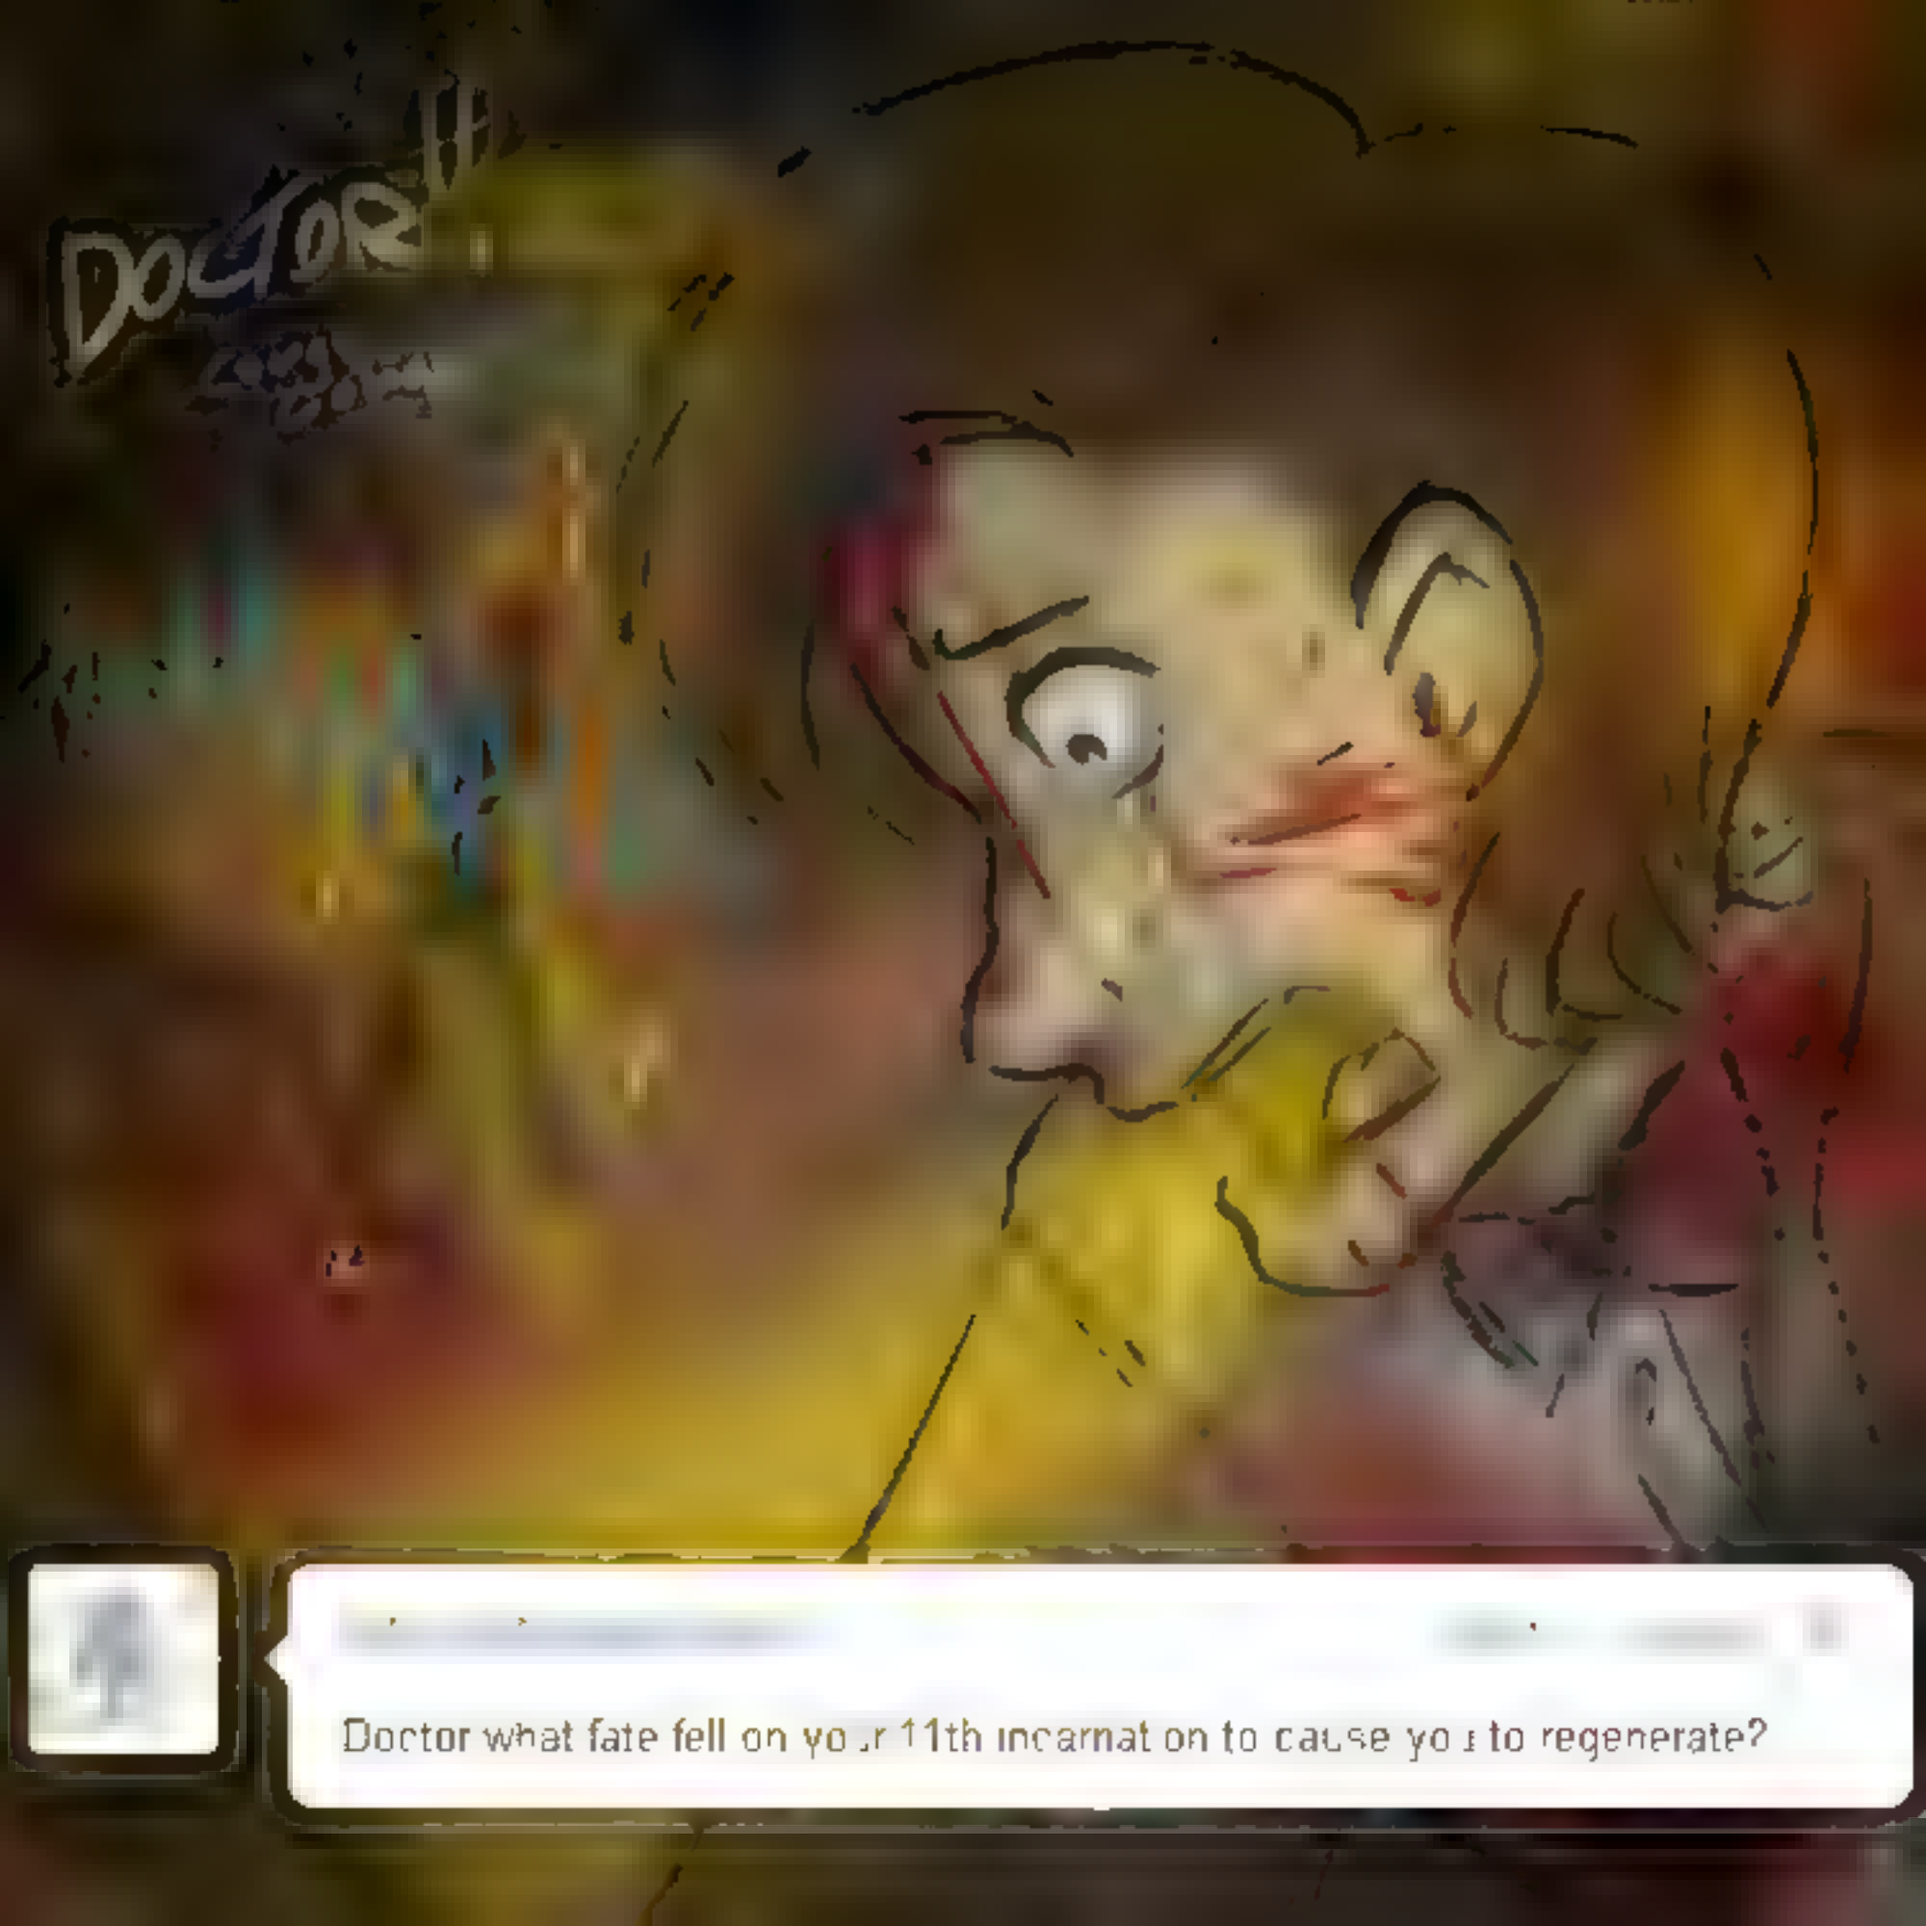
I can only hope they do him well

Take care of him Please

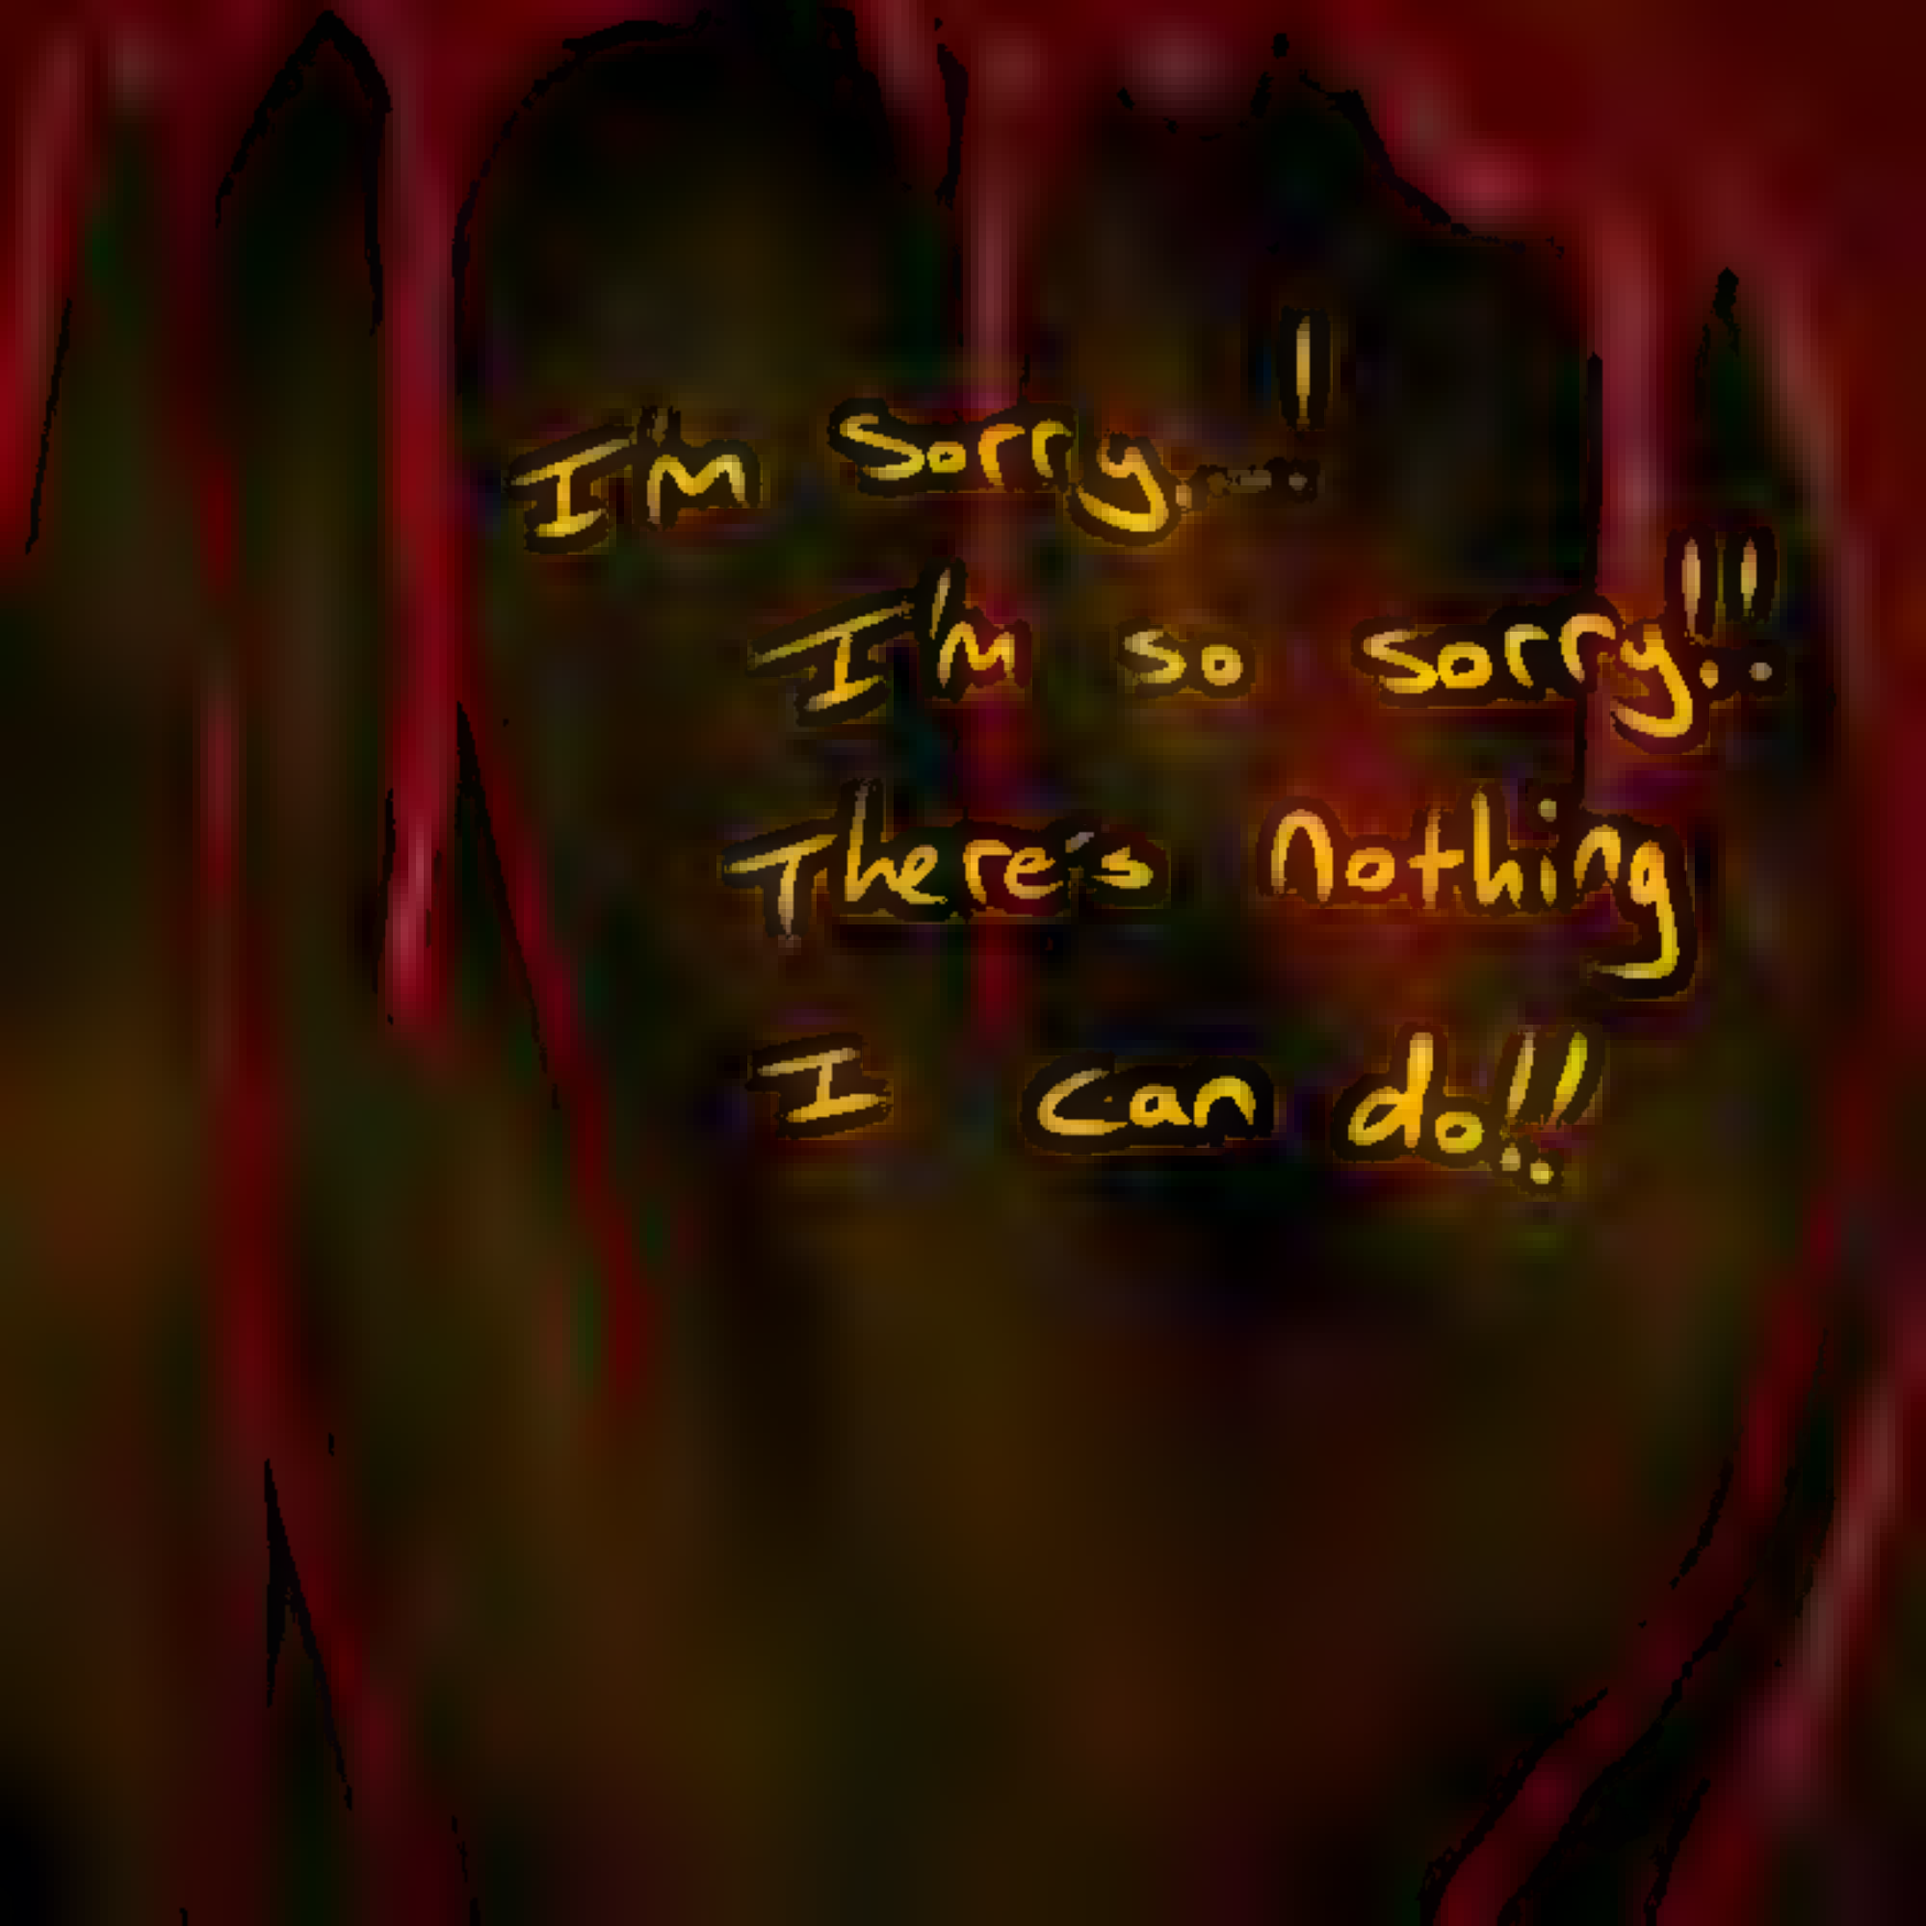
Do you ever have n ghtmares doctor?

Doctor!!! Doctor
what's happening!!

Do Something!!
I'm trying. I really am!!
I I feel like I'm being torn apart!!!



DOCTOR!!
Doctor what fate fell on your 11th incarnation to cause you to regenerate?



I'm sorry...!
I'm so sorry!!
There's nothing
I can do!!

Doctor! wake up doctor! doctor Something s about to happen!
GASP!

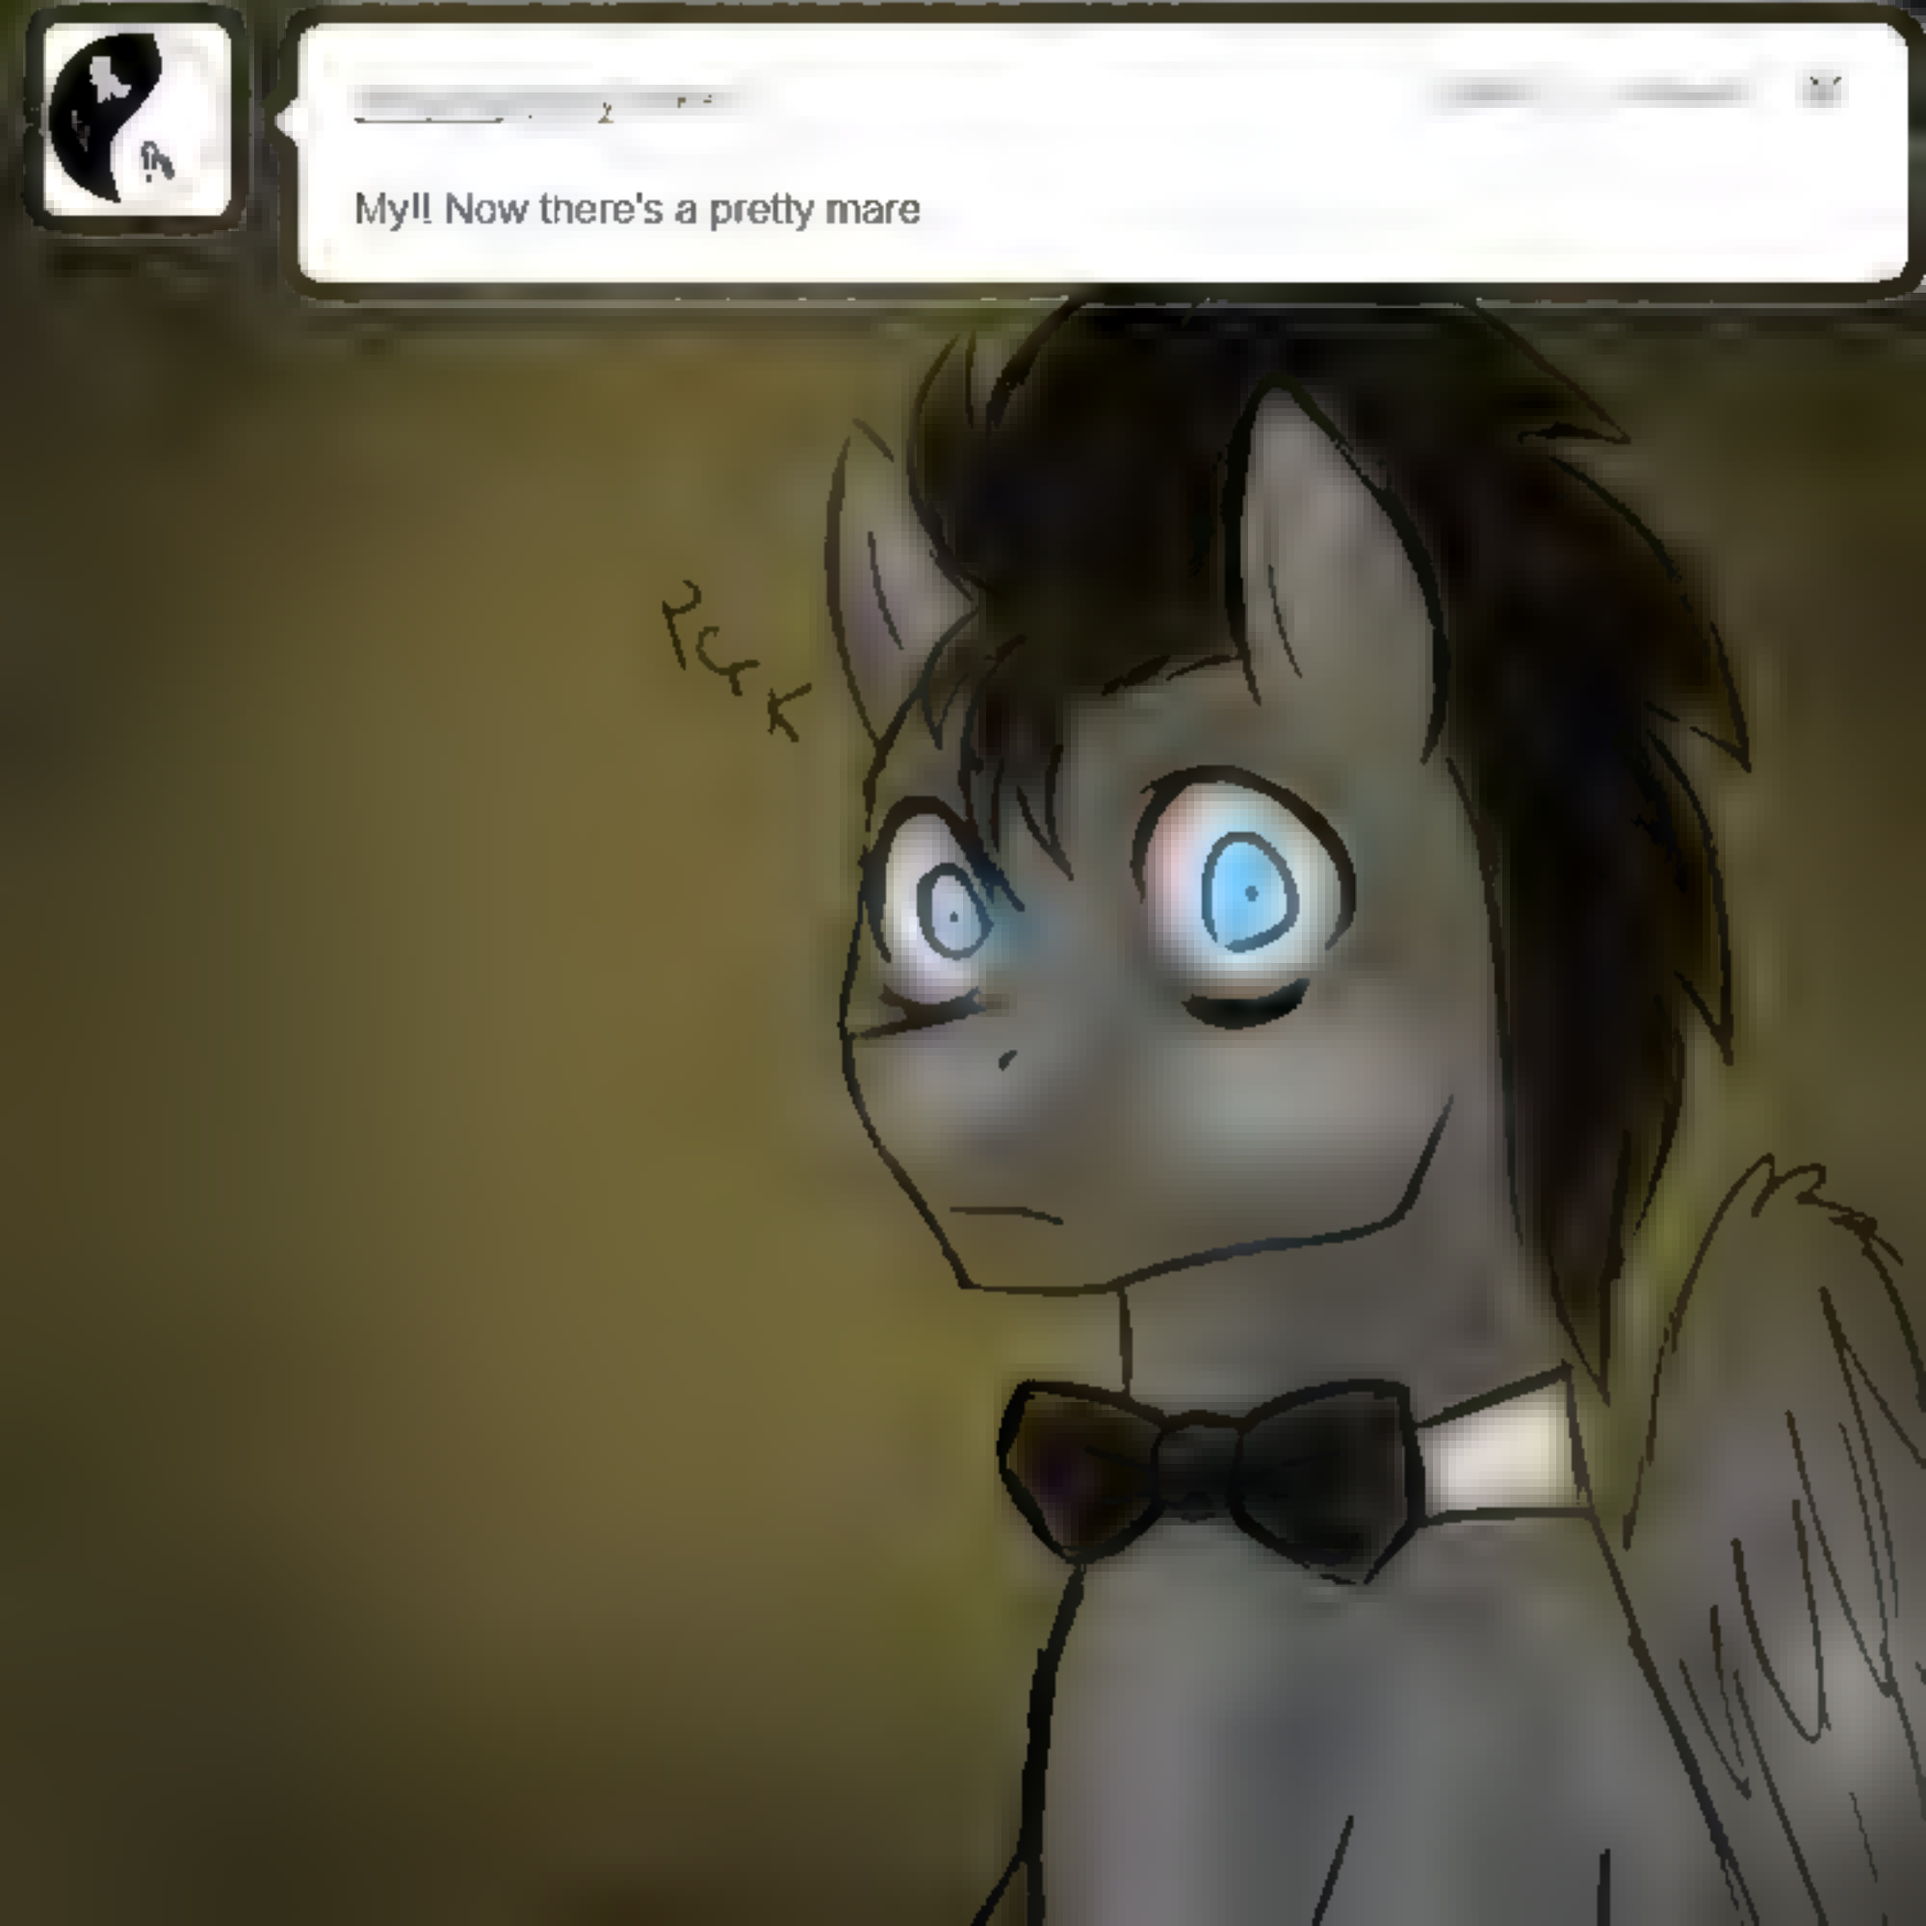
Oh Doctor
At first I wanted you to change back I did Really I did I thought you'd be happier like that then as the sniveling ball of garbage you are now Now I don't
You hurt Derpy You slept around like a whore You slept with THE MASTER
You ruined yourself You've gone too far You're too much of a coward to face your mistakes and that's whats keeping you from breaking (Well you *are* cracking, but cracking is a slower process than breaking) To change back back to that wonderful, brave kind man, to burden him with that guilt your guilt He'd shatter I'm sure Or maybe not
I think you're better off dead really

Still the same reading
Huon Particles
inside a magic
hourglass.

All I can conclude is that
Somehow opening the Heart of the
TARDIS in this
Universe
a magic
within the
Hourglass and
Pulled the ver
escape
the TARDIS
inside it, and
thus
it as a pony...

It's only a fraction of the TARDIS though She's still able to fly and function
This explains why she can't speak

This universe makes no bloody sense with all this Magic breaking the rules.



My!! Now there's a pretty mare

Oh my gosh she's gorgeous!! I don't how it happened, but you have to admit the creature that the hourglass turned into sure is beautiful
You're right
absolutely

What will you do with that beautiful mare? Will you give her a name?
Her Name is Anarita.
It means endless.

As for what I'll do with her.

Oh for the love of Rassilon Doctor! I thought you were done with bucking mares!
Well, she's not exactly a mare now, is she?

Wha Doctor, come on! I know she's your sexy personif ed but you can't actually be think ng of taking advantage of her ike that! She can't even say yes, or no, that's not very nice at all!
Whoa whoa whoa Doc-- I get that you're a creature of inst nct, but try and stop for a minute to cons der the ram fications of you gett ng t on with the personified heart of your damn time machine my friend!
I can't help it, the curiosity is too great and she's just too sweet to resist...
But I have to try right?
If she doesn't want it I'll stop

Now surely you can't be thinking about doing anything with this new mare? She's truly only an hour glass
As much as one would like to, like myself. I forbid myself, meaning you, to not touch that pony/tardis/hourglass thing/pony. Even if she is a rather dashing pony
MOD!
No, Doctor. No screwing with the hourglass! She may look like a pony, but what if the readings from the sonic are right?
Well... There's only one way to find out, now isn't there?

you'd really do your own tardis?
Do you really think she will let you do that?
Come here, beautiful...

You're... Surprisingly
cold to the touch.

Don't do it!!!!!
You re going to do it anyway aren't you? Doctor Doctor no Stop Doctor stop
Wait...
um...
No
Mouth...

She doesn't have a mouth What f she doesn't have anything else?
Um Doctor If she doesn't have a mouth wouldn't she also be m ssing other pony "parts"?
oh don't be ridiculous, I'm sure she-

Qu te the nice plot she has there, eh, Doctor?
Wha-
There's no-
B-But how am I supposed to--

Doctor how exactly do you plan to get "inside" the Tard s, when you're already inside the Tard s?
Uhhh...

Pffft, not happenin' Dissy
Well, that settles that...
kind of anticlimactic if you ask me...

Wha- really? You absolutely cannot take advantage of your TARDIS There's no point, she's like a mother to you Pervert
Wha- I wasn't taking advantage of her...

Now now now! She may be beautiful but look at her she's innocent as a newborn foal I am sure that she wouldn't WANT your musty old carrot, anyway That's no way to show appreciation to the one who saved you!
N-No!! It's not like that...! I... I

Doctor, you sick fuck! You'd betray the TARDIS's heart like that??
It's
It's that
really
what I'm
doing..?

She's been taking such great care of you. Comforting you, keeping you clean, even just sitting there while you sleep. And how do you repay her? By looking at her like a piece of meat. You don't deserve her affections, you don't deserve any of their affection. And you especially didn't deserve Ditzy's affection.
I...
I didn't mean to...

You really going to have sex with your Tardis? So she is some sex toy to you? Haha Without her you would be useless, Without you she would be useless But its your chose of what do to but I don't think she will treat you so nicely as first
I'm just
I'm just so
Lonely

I'm sorry...
...I'm disgusting...

I don't think having sex with an hourg ass in the body of a pony with a part of Sexy is a good idea You can just dress her up instead You know, take her to the Summer Sun Ce ebration? That would be a good thing to do, right? I mean, she can't speak, what makes you th nk she'll be able to make noises?
Is... Is that okay..?

Wow.

I'm
a
Pathetic
bastard.

I can't stand this, my hormone levels are going haywire again but I don't want to leave! ESPECIALLY not for such unsatisfying results!

When are you going to face the fact that you're just barn sour? I guess you've become more "horse" than you can admit
Barn sour?!
No! I'm not a horse, I'm a Pon—

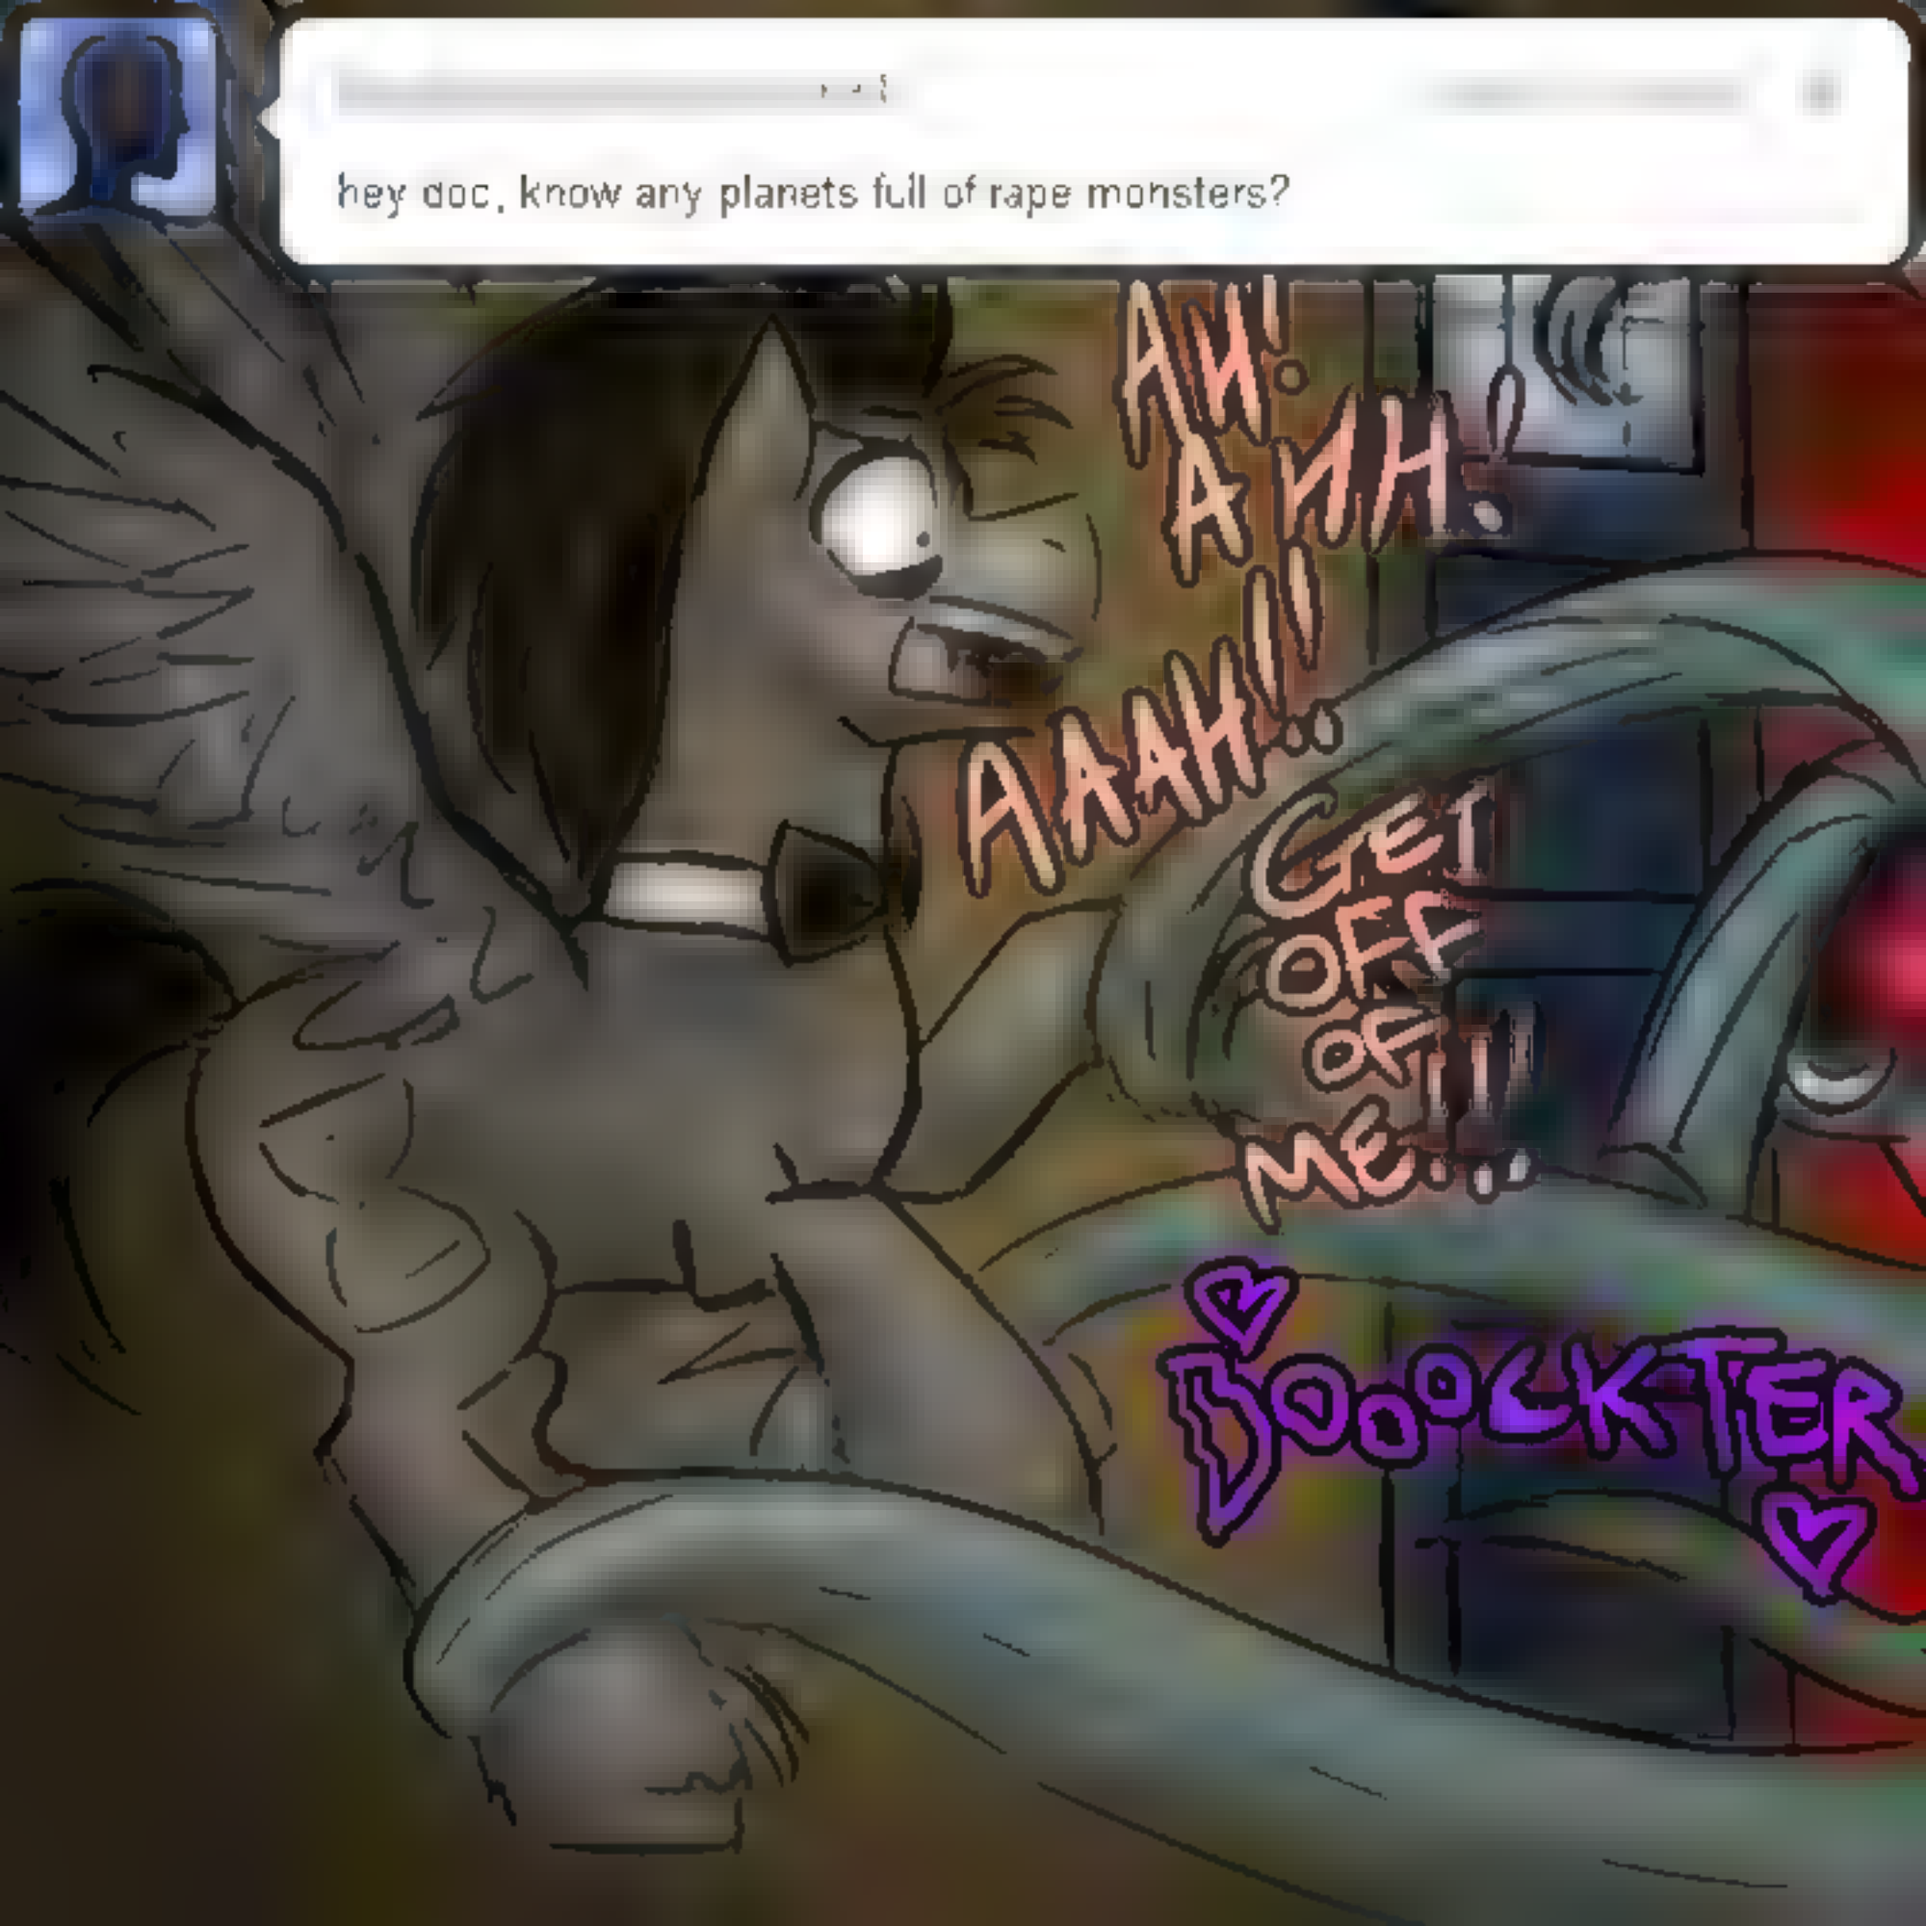
T-Time Lord!! I Mean Time Lord!!
And I'm NOT going to leave this TARDIS!!

U-uhhnn... It's so hot...
M-Maybe I can find something else...

Doctor we now your rather rgorous with your sex-making, but you wouldn't harm any poor soul who didn't want it would you?
What--?!
NO!!
of course not! why would you even suggest that?!

What is your opinion on Daring Do?
You should try to find Daring Do. Maybe you can try new things with her. She is called "Daring" for a reason.
She's a character in a book, you idiots...

Well, maybe if I just...



hey doc, know any planets full of rape monsters?
AH! AHH! AAAH!..
GET OFF OF ME!!
DOOCKTER

You can't hide forever Dockterrr
HIEE
HIEE
HIEE

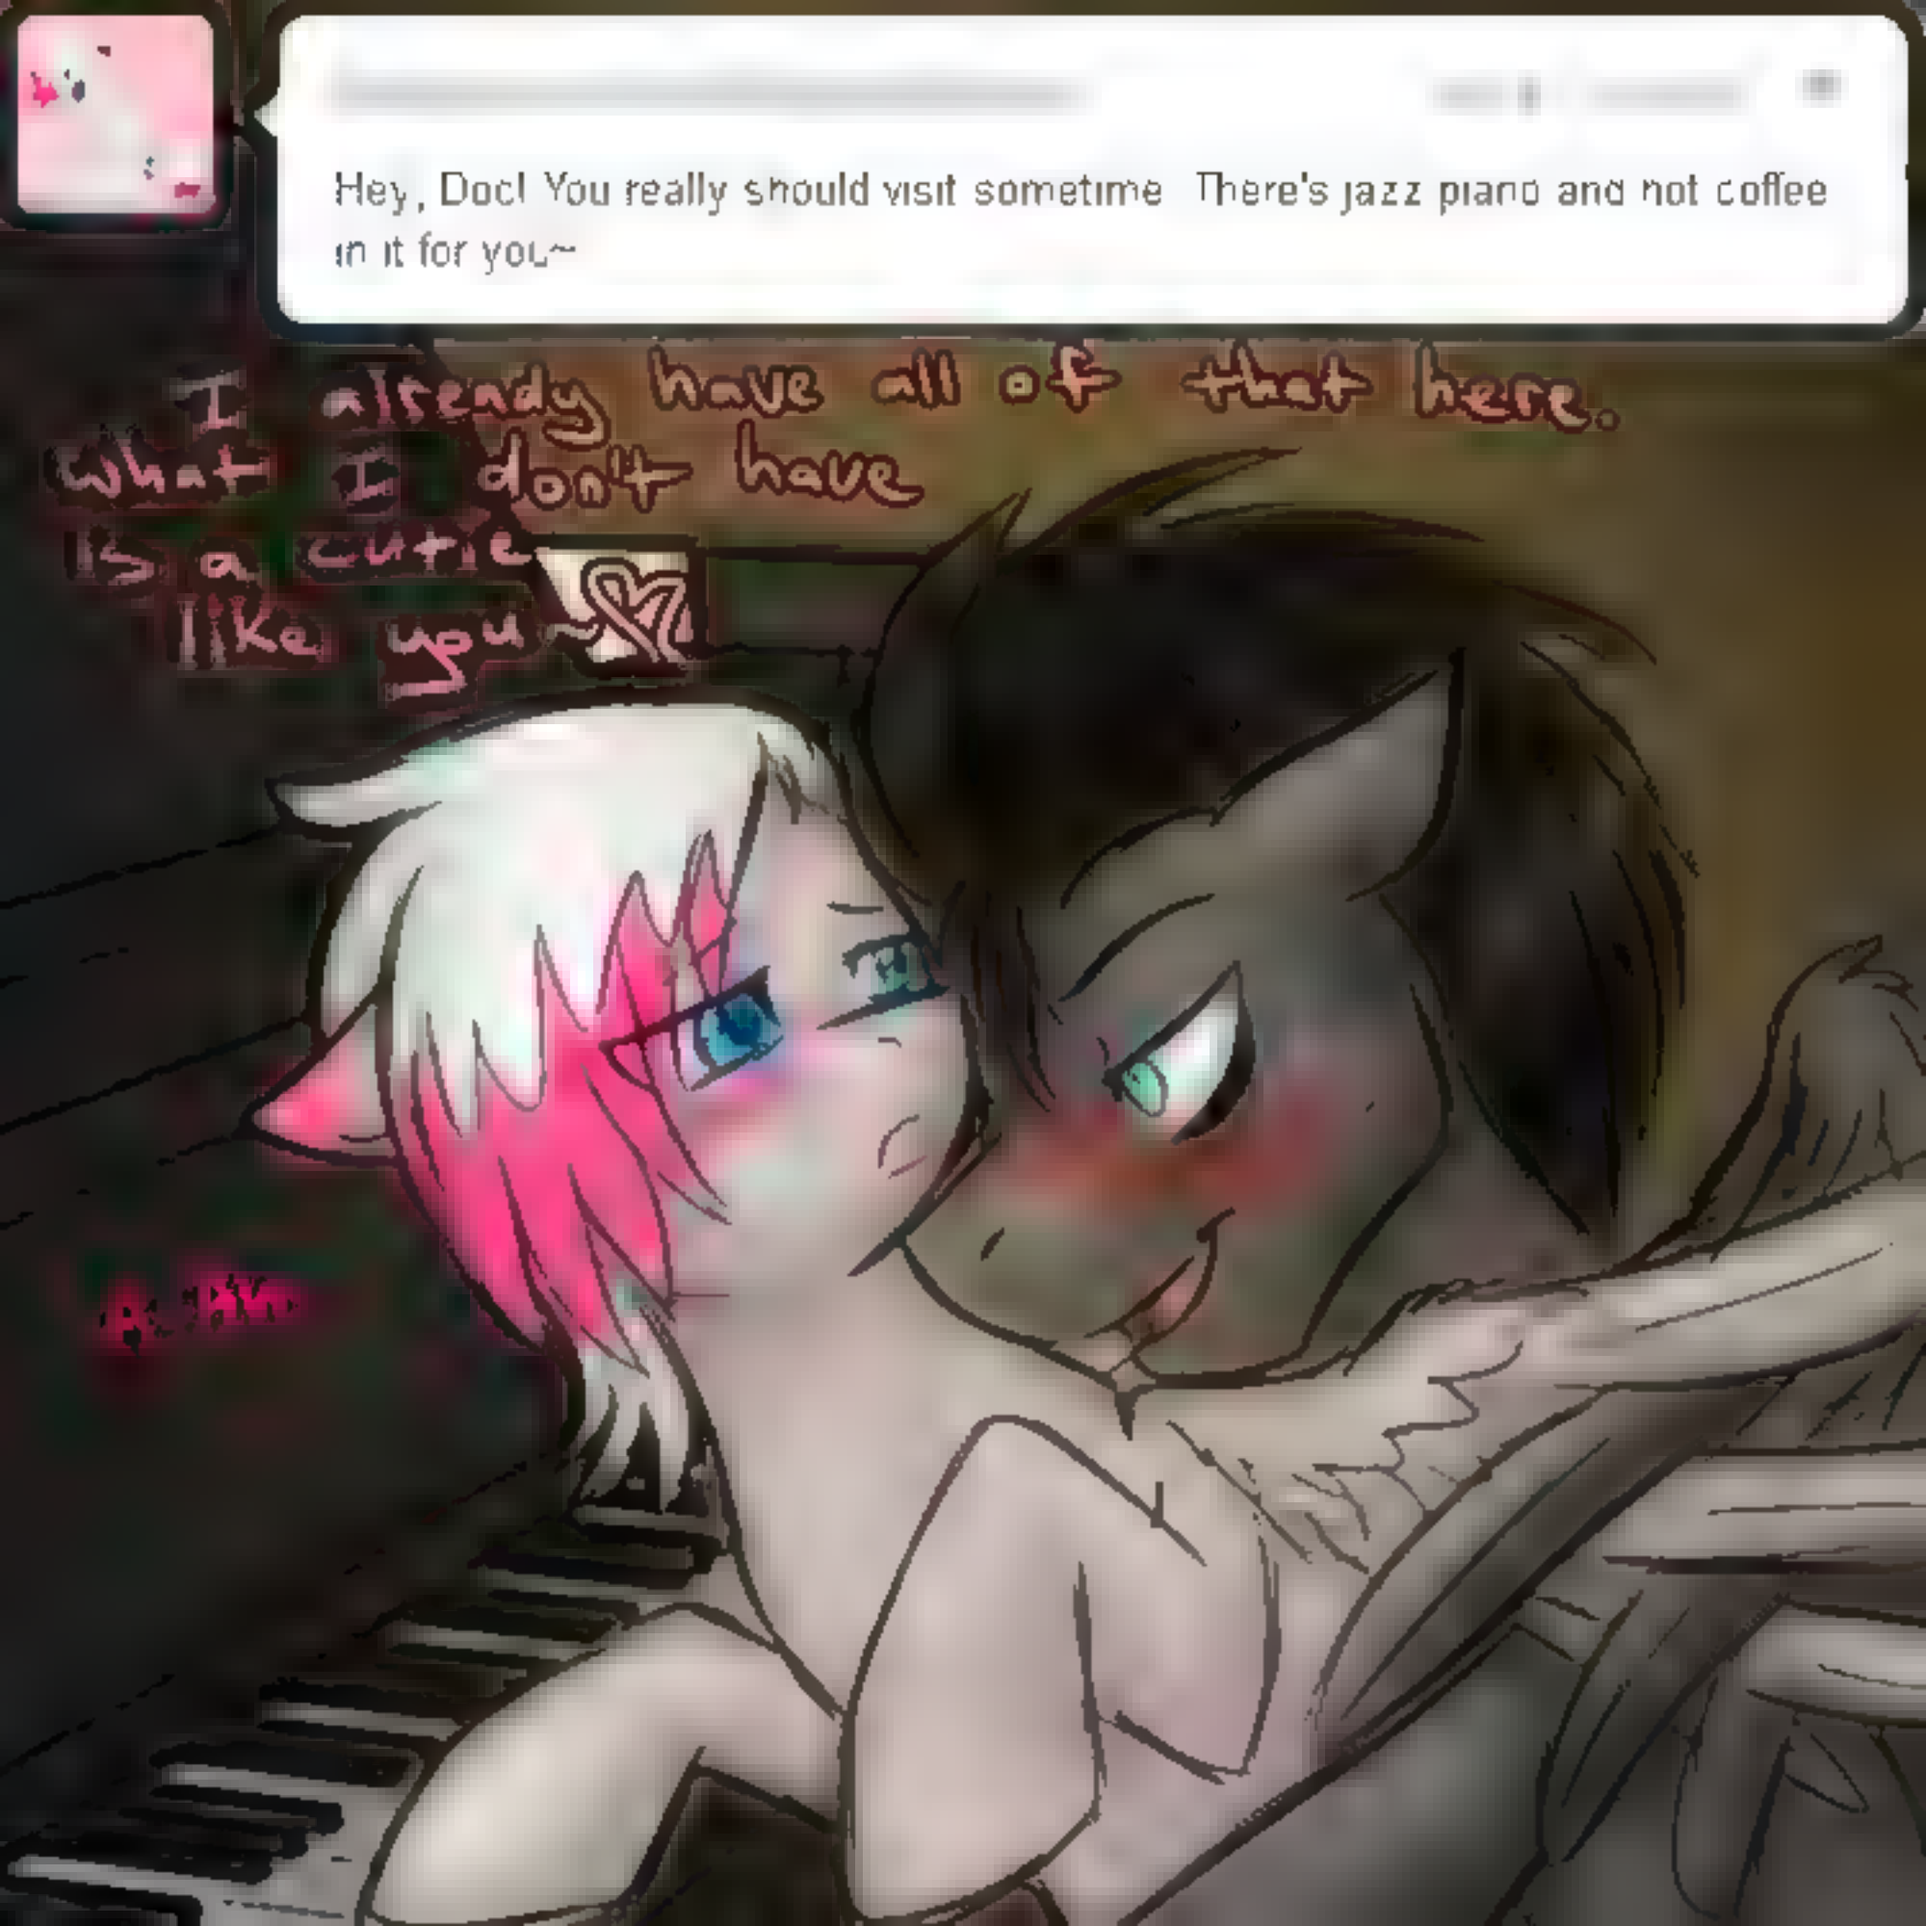
See?! Yet another good reason I don't want to leave!!

doctor is it just me or have you been going crazy here lately?
No, it's not just you... Just look at me, my moods are all over the place and I can barely control my impulses...!

I Can't Stand this!! One More try One More !!!!
M-Maybe I've been going after the wrong thing...!!

Do you [illegible]ke sta[illegible]ons as well as mares?
I- I don't know, I don't really care about genders, but Perhaps I've been giving the mares too much attention

you really are cute if you ever want to do someth ng im always ava lab e
...Bored...



Hey, Doc! You really should visit sometime There's jazz piano and hot coffee in it for you~
I already have all of that here. What I don't have is a cutie like you~

Okay so I'm generally not this blunt, but I want you to have sex with me I want you to plow me, and take me however you please and make me your little pegasus boy toy I like you~

So Hoofy I've been wonder ng could you tell us of your 'adventures' with Braeburn? I remember a see ng a glimpse of you two together a while back

Hello Dissy, long time no see Come and find me, your hint
AAAAAAPPPPPLLLLEEEOOOOOOSSSSSAAAA

Get out.

Once aagain,
Nothing. No results.

What the hell
am I doing wrong?!

They say that sex is more mental than physical, so to speak. Maybe your mentally blocking yourself
What? That sounds ridiculous, what could I possibly be blocking Myself for?

Maybe you can't finish because there's a bit of good in you that's saying "No, I can't and won't to this to these mares/colts " A bit of good that you've forgotten you have

Lost....
Very, Very lost...

I think I've figured it out.
This all seems to be some kind of...
Equine instinct.

I'm a Time Lord, not a pony.
I shouldn't have to give in
to this.

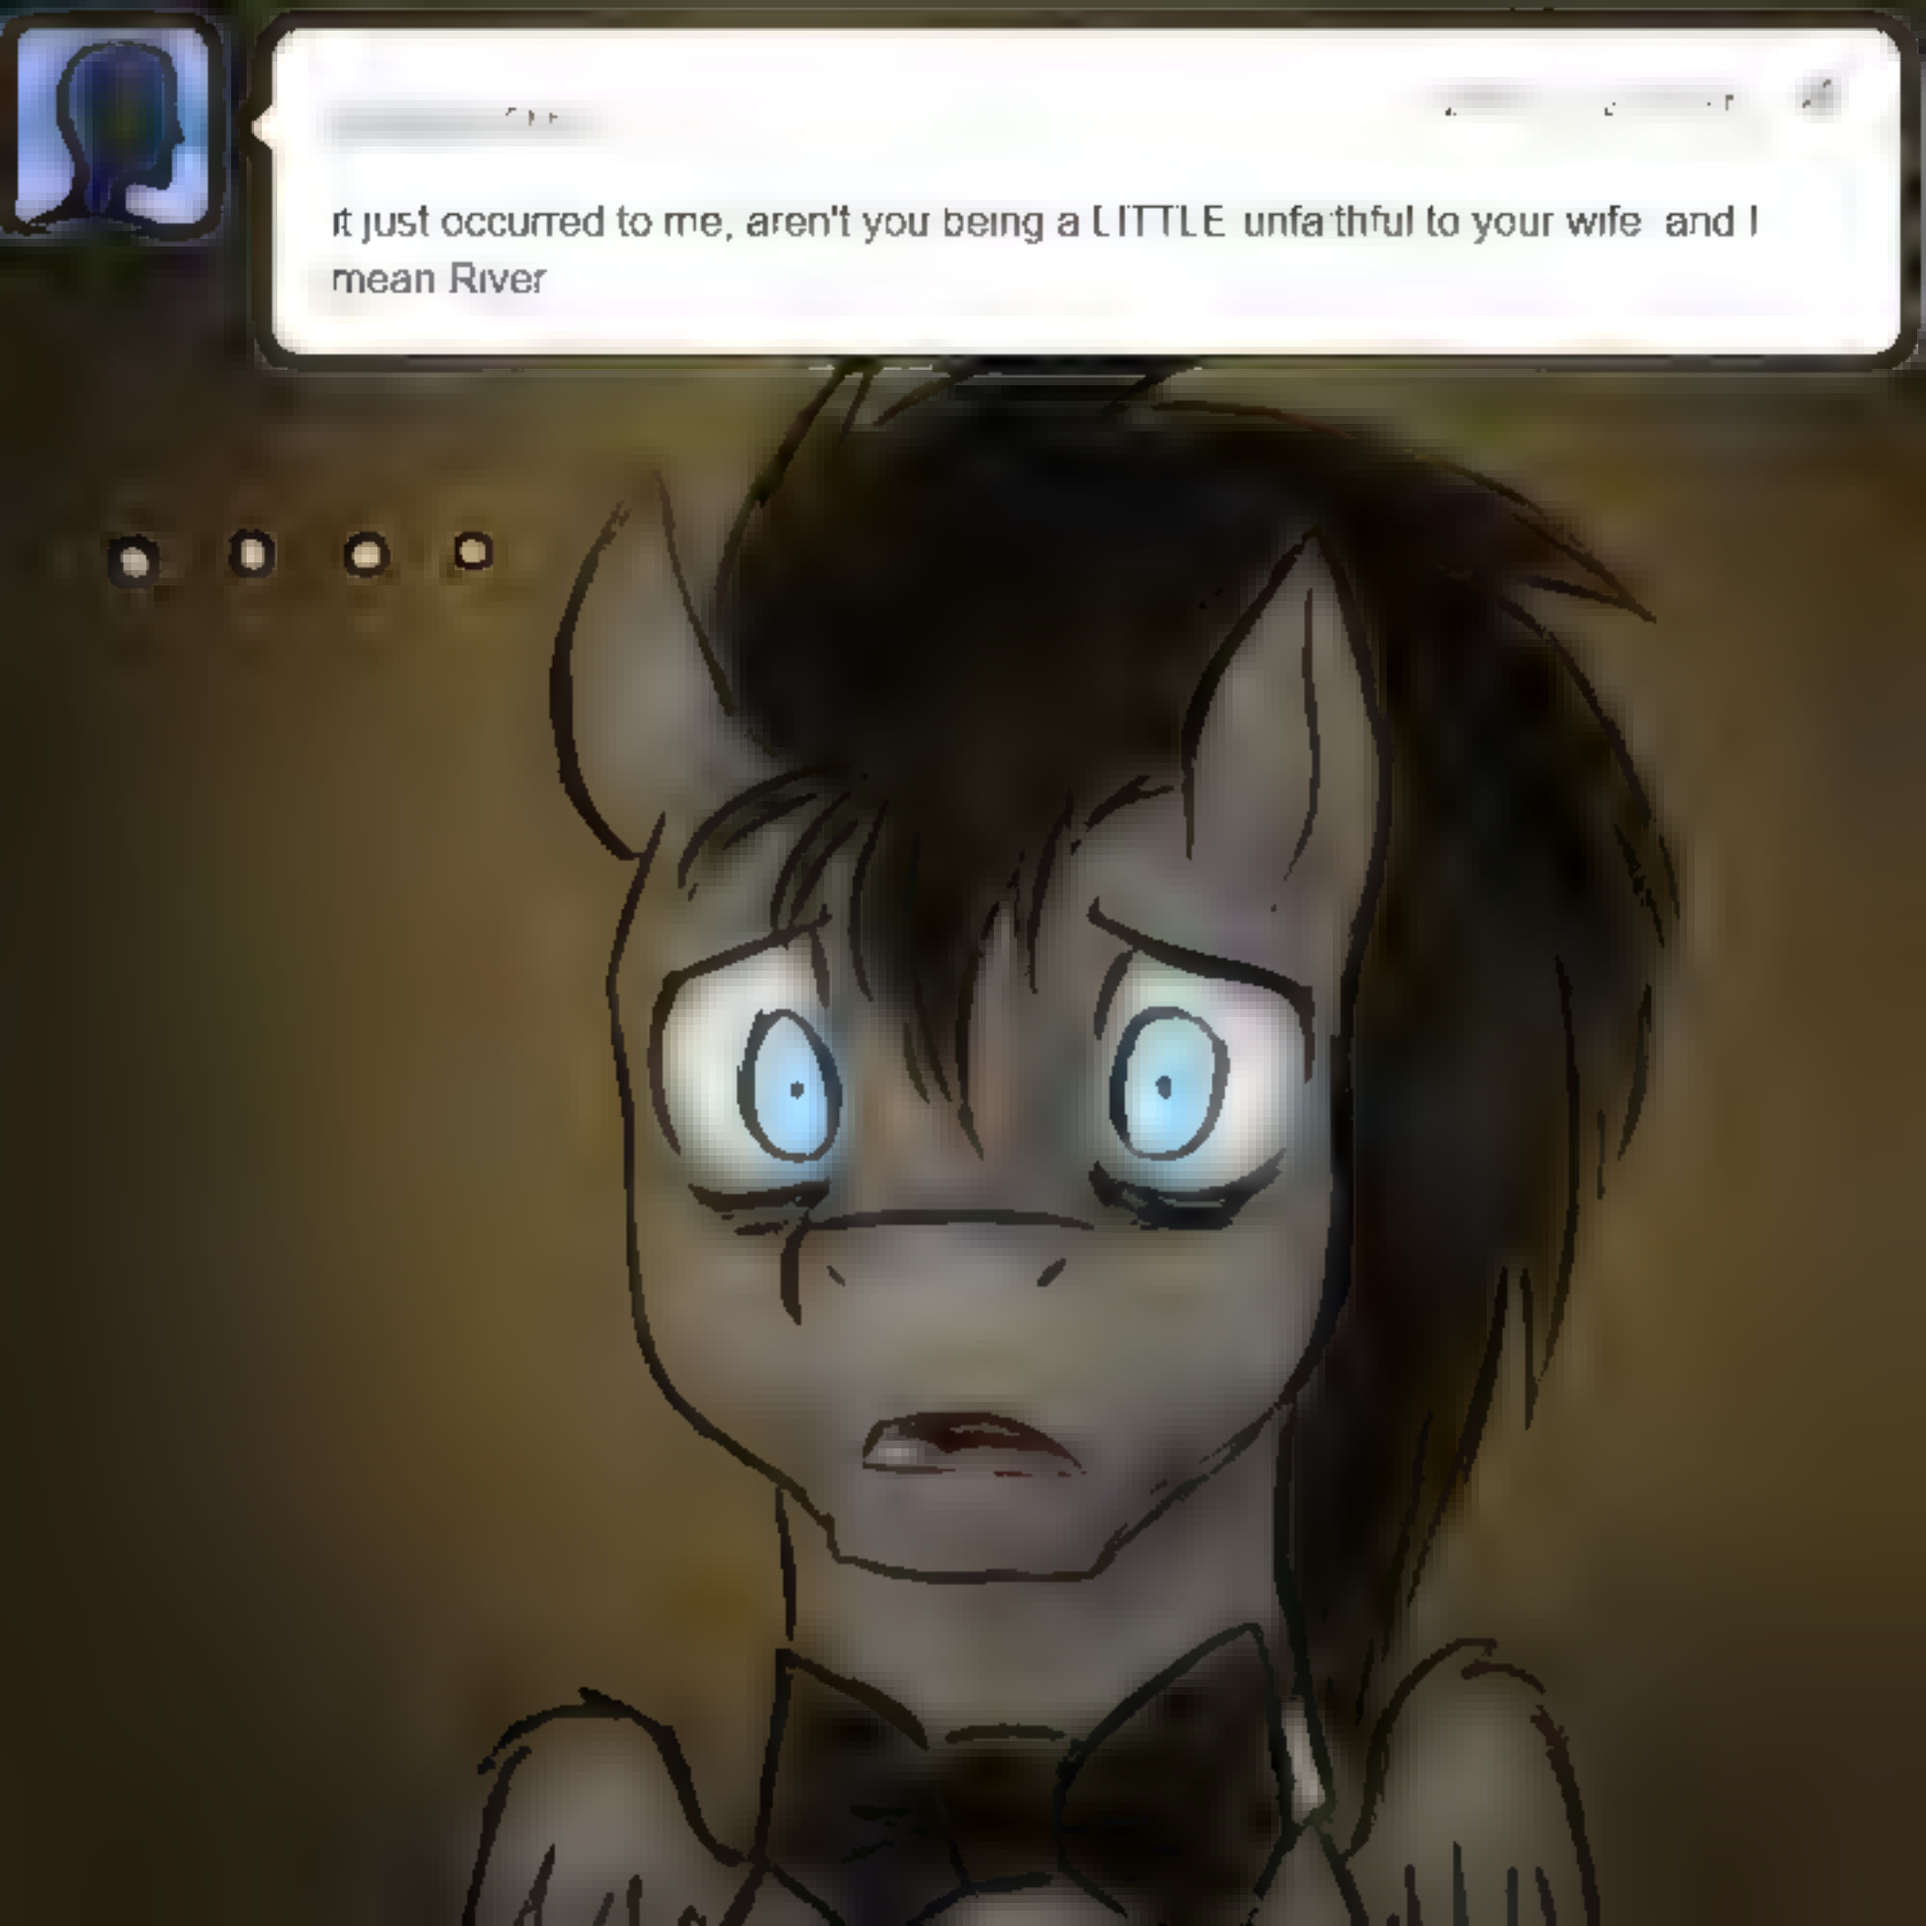
It was never an issue before.
So that's why I decided...

I'm giving
it up.

Maybe you should try some Manehattan mares, I hear they're very naughty under all that classy exterior
NO.
N. More lust filled escapades with lacklustre results.

I'm through acting like an adolescent stallion on the prowl for mares in their estrus cycles.

I'm The Doctor and I refuse to succumb to some petty Primal instincts of an inferior species!



It just occurred to me, aren't you being a LITTLE unfaithful to your wife and I mean River

'Til death do we part.'

I
DIED.

Do you need butter? I haven't seen you eat any in a while
Suddenly Butter

The Doctor? What a joke Someone who beats helpless mares, ruts with anything that moves runs away when he is needed most and refuses to do anything when ponies are suffering around him You are not the Doctor You are just a selfish little boy unable to care about anything unless it can be drunk or has legs to spread
Not any More...

Doctor, what have you become? Everything you've ever stood for, was it for nothing? If any of your old friends saw you now oh Rose Poor Rose poor brilliant Rose what would she think ?
They wont see me. And neither will she. None of them ever will.

You want to know the truth? The truth about yourself? You're no coward. You're no doctor. You're no Time Lord. You're nothing. Now here's my question for you. How does it feel to be nothing?
Take a good long look.

You know what I can't understand? Why you continue to cal yourse f "The Doctor", since you're obv ously not , mean sure you're stil the same Time Lord, but you're not The Doctor Doctors he p peop.e HE helped peop e You don't You should probably pick out a new name
Doctors 'help' people? Is that what you believe?
Doctors are really just liars.
They aren't healers, they're scientists who play with lives.
How many do you think have died under the care of a doctor?
There you go, then. I'm not changing my title.

You finaly faced that Everything we said s true, you are just an extremely miserab e broken creature Doctor You NEED help somewhere ns.de you always knew that And now you have to admit it Just let us anypony help you If not for yourself do it for all those ponies you hurt Do it for Derpy She still loves you, after all those terrible things you've done to her
I'm my own burden. I don't want help...

Hmm looks like you dreams and nightmares are going to come true Doctor
They already did.

What if, now just stay with me here, what if instead of sexing it up with a mare, you just hang out with her for an enjoyable evening. Take her out for a night on the town. And afterwards, just stay in and cuddle with her. I think Twilight would be a big fan of that
You...
May be on to something...
PERK

But I'm... Honestly a bit scared to approach my Marshmallow right now...
I think she needs her space for a bit.

Have you ever thought about spending some t me with a Zebra? I hear Laura has the hots for you
Mmh...?
Laura...?
W-well I did notice her Pining quite a lot after me, but... Last time...
She was dancing with The Master...
I don't know...

Now mister Whooves, I know you dot know me and I'm sure my request must be common but, if you would please at least look at this blog (it isn't mine) and maybe give Laura a kiss? She has a rather big crush on you.
http://asklaurastuff.tumblr.com/
I apologize for wasting your time
Are you really sure about that? I mean, I did run off on her last time... I'm not even sure if she's accepted the apology flowers or not...

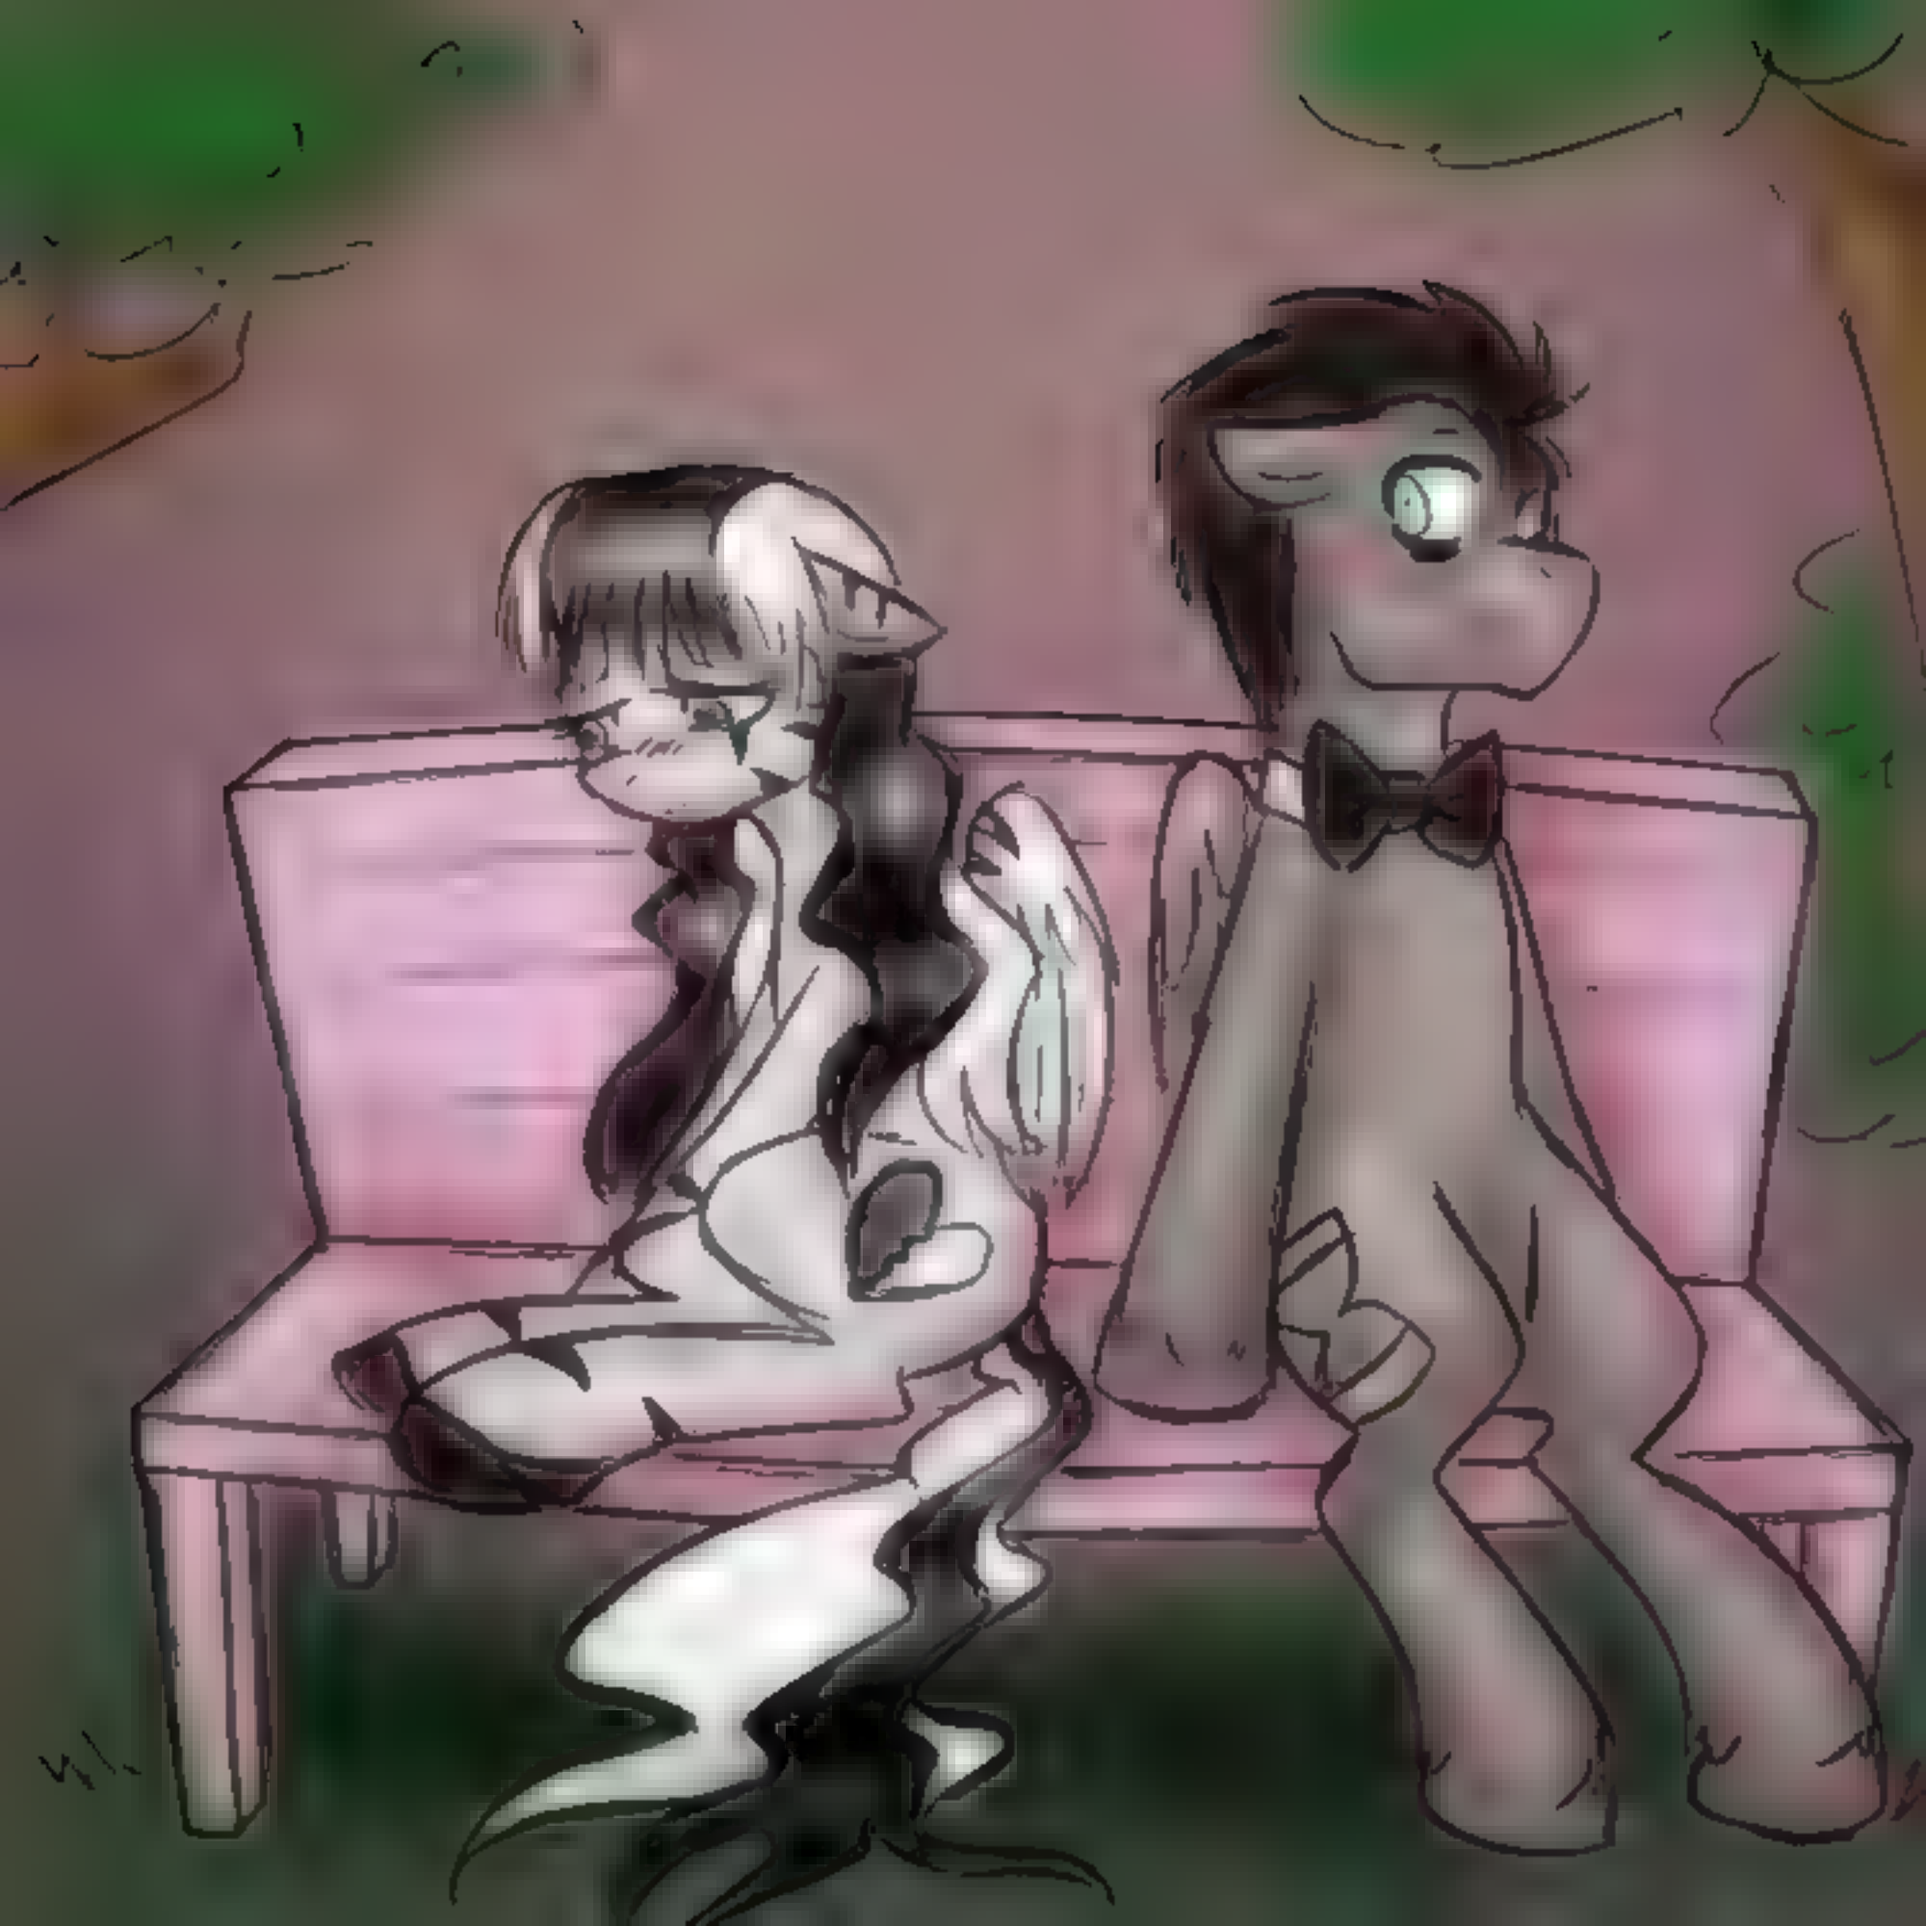
You seem n need for ove Not what youve been doing, but honest to goodness love Look no further than Laura, the zony Her love and compassion for all ponies and things is boundless She has helped me shine brighter ever than could have hoped for, and has he ped me become a better me f t worked for me, how can it not for you? Please, just tak to her and you'l see what I mean
You're really not going to let this go, are you? Is she really all that-

Dear doctor, I just wanted to inform you, that if your having mare trouble, there is a quite lovely little zebra by the name of Aura who seems to have quite a thing for you, and im sure would fall head over hoof for if you were to ask her to dinner Oh, and im ratther disapointed with how your handeling the discordizat on, no disrespect intended but i handeled it quite well and am over with it What happened to you? Are you to show that im actualy BETTER at something than my hero?
L-Look, I don't think it would be a good idea! Good lord, how many of you are--

You are looking for love in all the wrong places. You are building relationships upon sex, which the completely wrong way to go about it. If you are actually looking for companionship and true love. I've watched you go from one mare to the next, and honestly, I would have thought you a lost cause, were it not for one. She's a Zebra mulatto, known simply as Laura. I'm not saying try to woo her, but instead, just interact with her. Any second spent with her is worth hundredfold that of any other.
ALRIGHT, FINE!! I GET IT! I GET IT!! Just Stop already!!!

F-fine...
I'll go ask her out on a p-proper...
One-on-one...

D-d-d-date...



Oh geez... Laura you're just making this date awkward! Try to act cool and don't... mess... up.

Sure is

Oh Nooo! What'd I just say?!

I'll drop you off at your house.

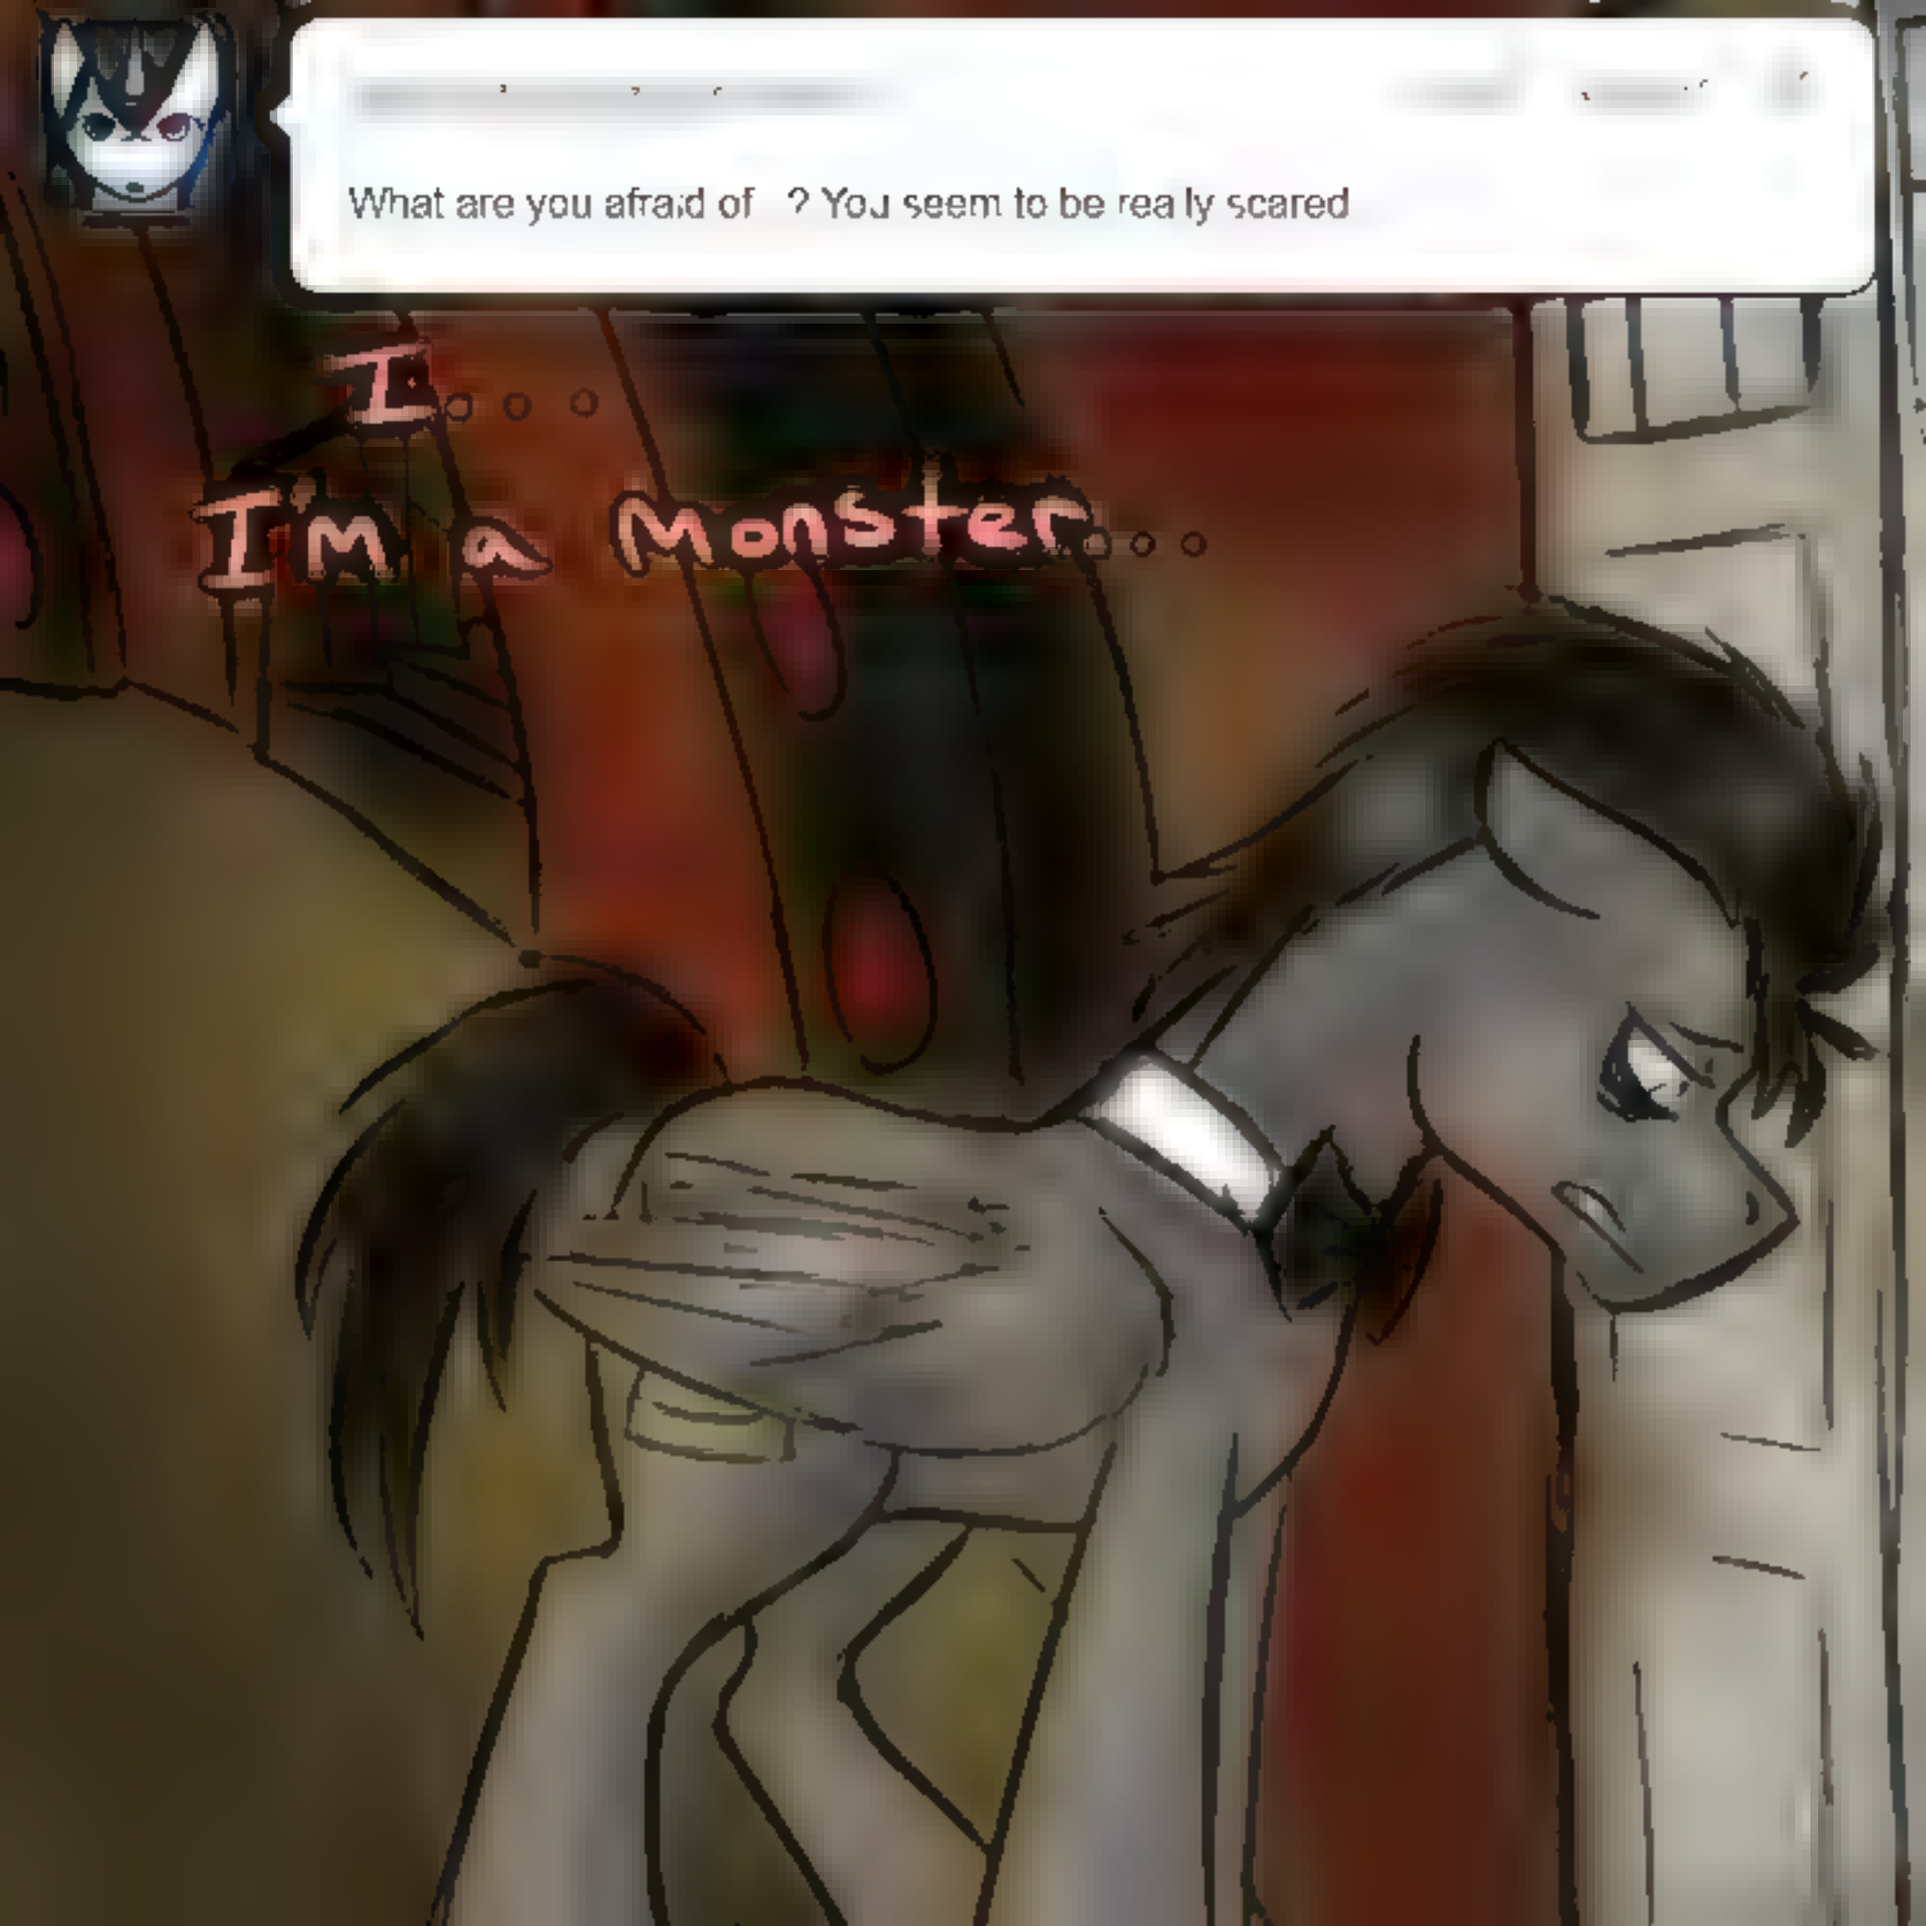
No... No,
I can't do this
to her...

I just can't!!

You probably can't see it, but Laura really loves you
Oh, Yeah, good idea, Doctor! Go on a date with someone who knows you're not available!
Really smart!!



What are you afraid of ? You seem to be really scared
I...
I'm a Monster...

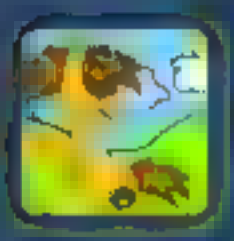
You know what happens between you and the Doctor could mean a lot more than a 'good' friendship. Why not open up to him a bit more? Inside, he might love you as well. He's just one of those distancing types, just like you. Heck, who knows, it might evolve into a nice, steady, long-distance relationship that will actualy work. Why don't you give it a try?

Why u FriendZone Dissy?

why did you not invite him in?

Don't Give up! I made that mistake once & it made my life go on a turn around failing down hard crash landing. don't give up

I know you said no hug offers, but if you need one, I'm offerin' 'em up!
I, ehrm, heard about the date, as opposed to my last question. Ya alright?



You ok Laura?

Laura if you would just tell the docture how you feel this would have happened I know it seems like its hard but its really not, especialy when he likes you back

Are you alright?! He didn't hurt you, did he?!

I... I can't do this to him...

He's seen too many loved ones die already and even if we did fall in love, I would be hurting Ms. Twilight!

I just...don't want t-to cause him more pain.

There there... it's gonna be ok.

I... I'm such an idiot for even going.

How did that date feel Doctor? Any reason for the sheer awkwardness of it that you can think of?
... The whole thing just didn't feel right... She looked really miserable and uncomfortable to be around me, and then at the end... crying...

moo!
Doctor That was a little Did you even try?
I-I'm not used to dates. Especially not really quiet ones with awkward glances...

What was off was your swag stupid!
What the heck was that?? You're smoother than that!
I know, I know! I just- I don't know! I felt like flirting with her would be wrong for some reason!!!

Seriously though Not to push, but really What happened?! You're so smooth most of the time! Was it just the fact that it was Laura? She's probably different than most mares I hope you both are okay though
I... Just... Didn't want to ruin a good thing... She just... Doesn't deserve to be around s-meone as terrible as me... okay...?

That was the shittest date I've ever seen. If I could, I would reach out and smack you upside the head. Seriously!? You couldn't even complement the poor girl!? Bad, bad doctor!
Damn it, Doctor. You should have said something nice to her!
Dammit, dammit, dammit! I really should have, you're right...! I had to be all stupid and quiet and she probably thinks I don't like her or something...!

Dude, how cou d you let her go without a kiss or somethin man? You screwed up, bro
Alright, Yes!! I screwed up!! I'm an idiot and I probably ruined her day!
What am I supposed to do about it?!

Maybe it would be less awkward if you two were to get to know each other a little bit more
Do you even know how dangerous 'getting to know' ME is? Do you really want that risk? I sure as hell don't!
Tap Tap Tap Tap

OH GOD Doc you let her get away she was sooo nervous you should've said something She's a once in a lifetime girl are you gonna let that go? Are you even gonna set up a second date?
She was crying. Do you honestly think She'd want a second date if the first one made her cry...?

I never should have done it. I should have just left the flowers and never looked back.

Maybe it's a good idea if you try to go comfort her Doctor Give her a hug try and help her out a bit?
Don't leave Laura like that Even if you are just a friend to her be the best friend she ever had Don't leave her upset, mad or anything else negative Hold her until she's happy again and comfort her
...I...
You're right... I should at least give her that...

All I've ever done is run away from her..

Is Laura gonna be safe?

It's gone now... She...
She'll be alright...

Doctor, what the hell happened?!
It's dealt with. She's going to be Fine...

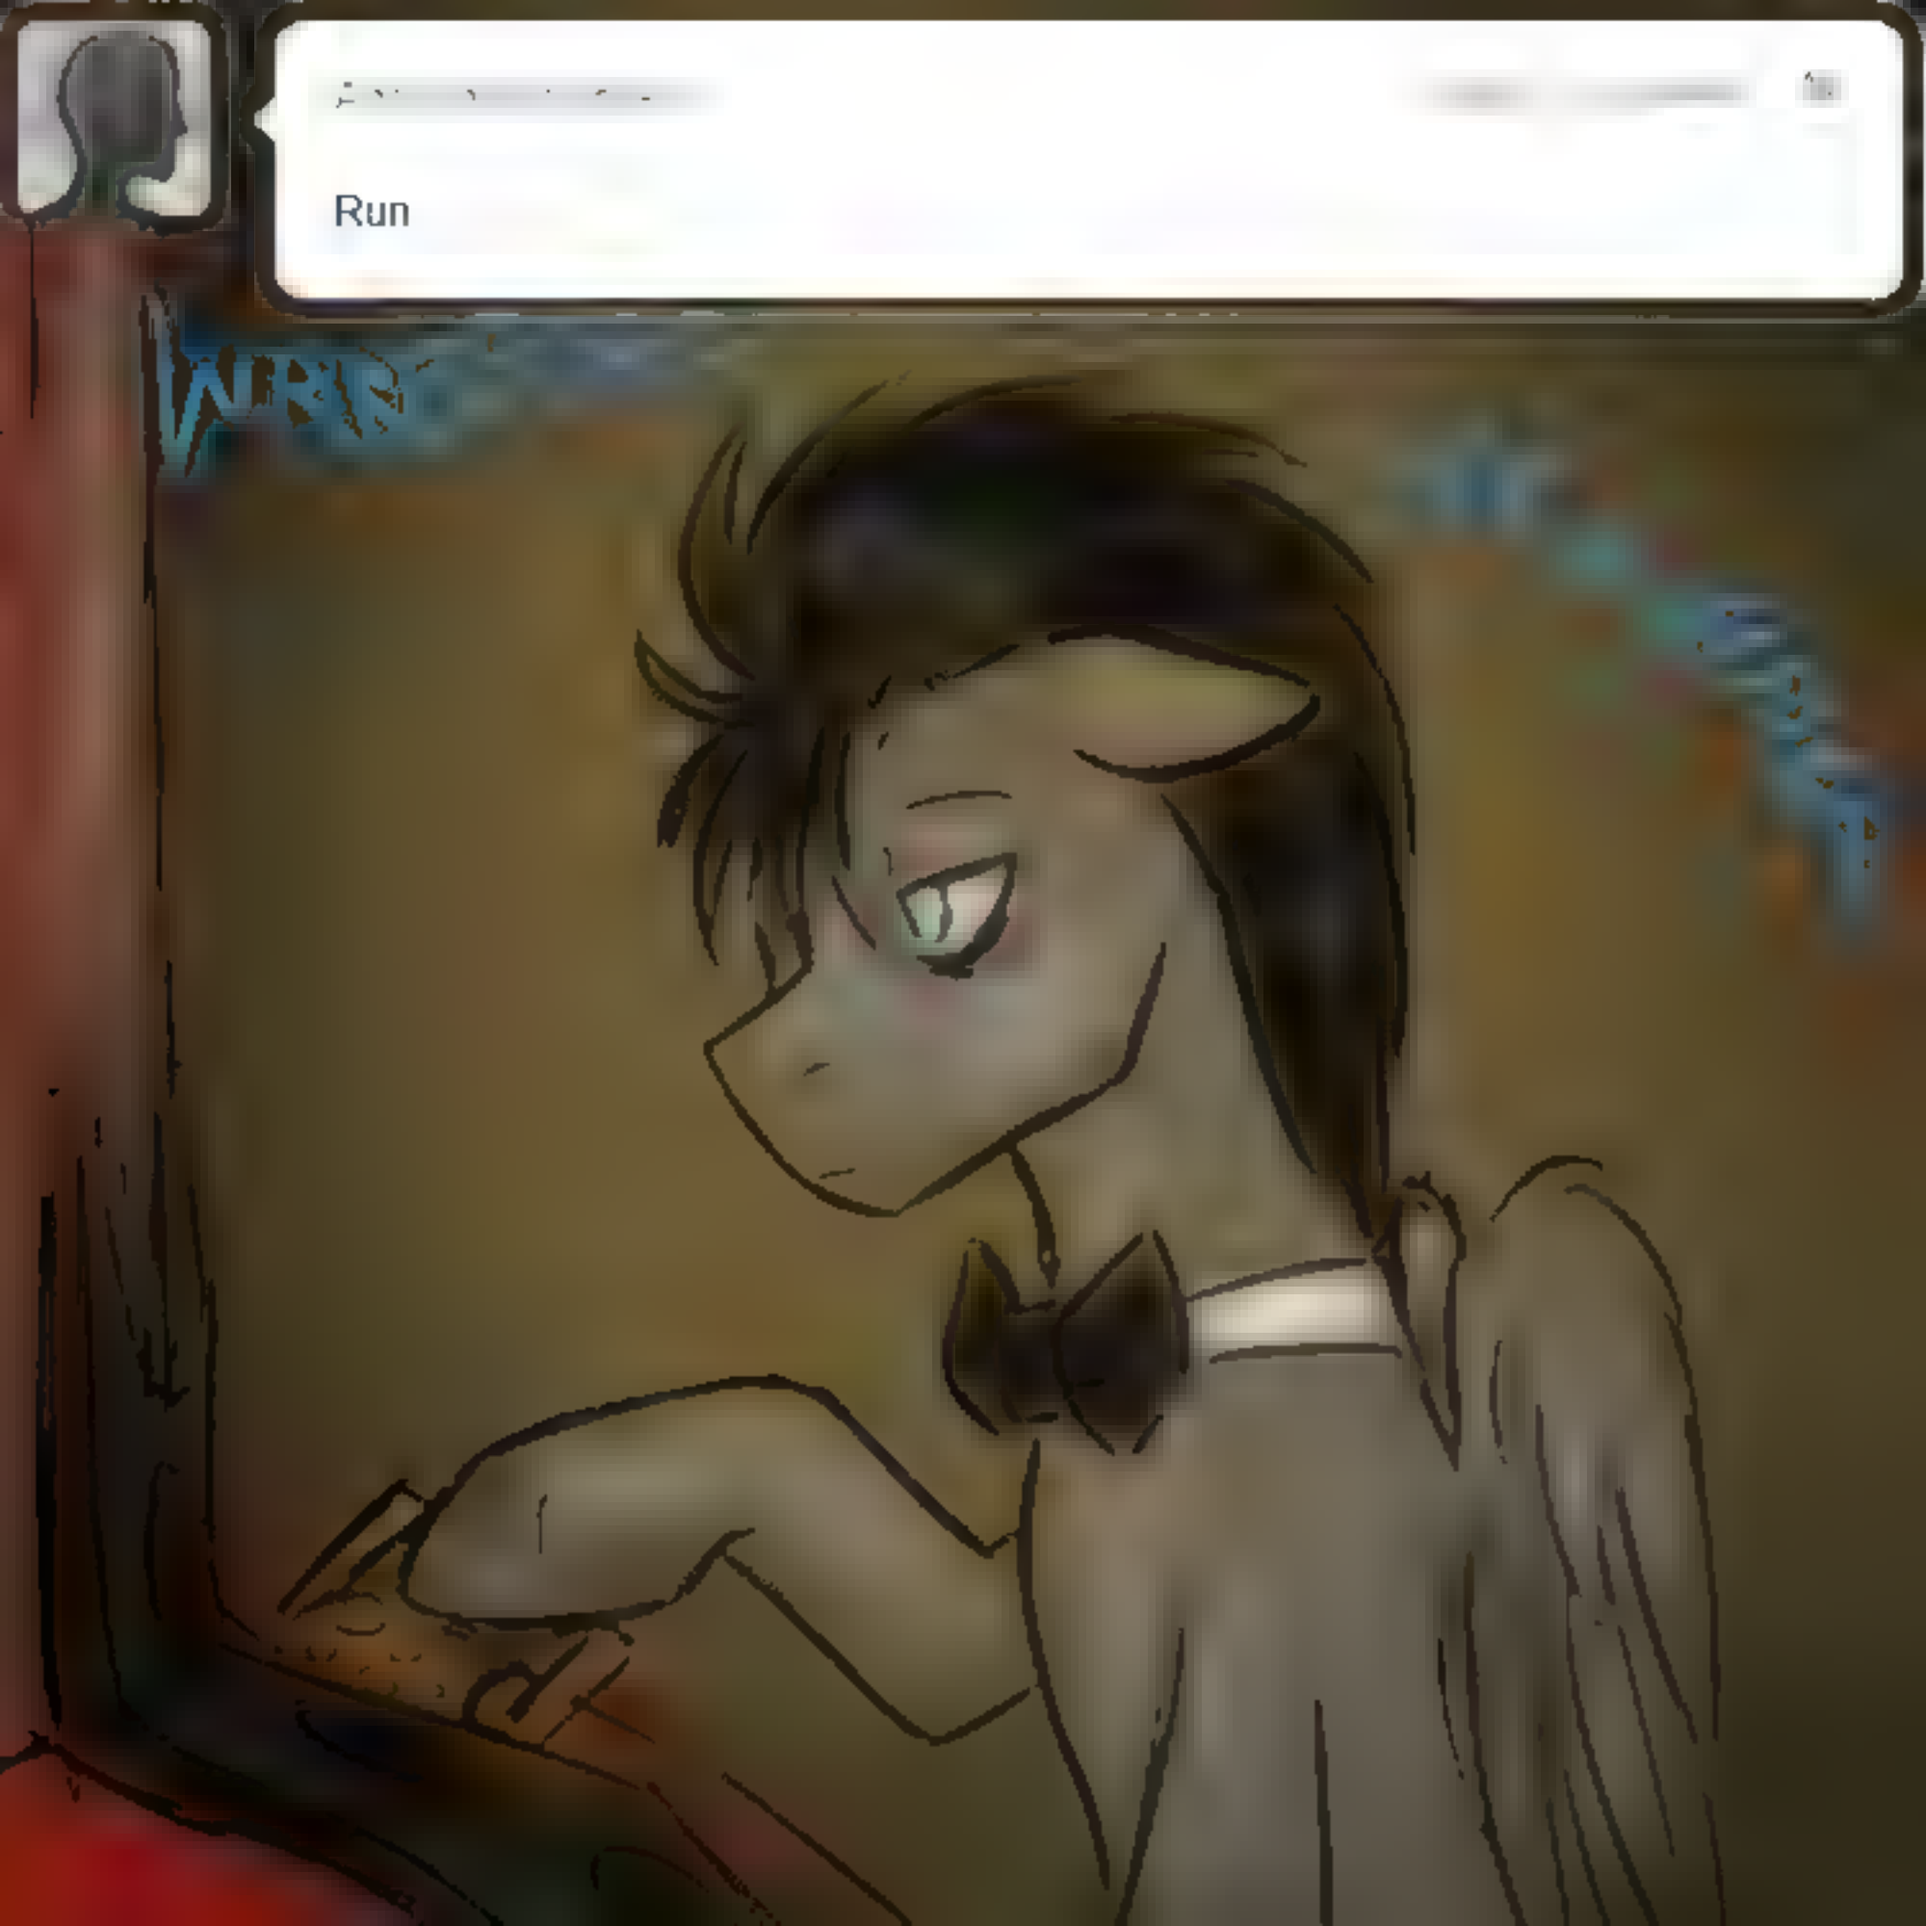
Get your dear Laura back into the hooves of her friend, Doctor There's nothing else you can do
You're her friend, yes?
I need you to listen very carefully.

She won't remember me. And never should.
Don't ever
Mention anything about me, and Protect her from those who might try.

If she remembers me at all, everything will rush back and she'll be lost forever.

"This is too sad Doc Laura has been hurt enough you know what you have to do as cowardly as it may be "
CREEE
Goodbye.

So how are you going to solve this uh? Run before anything bad happens to you



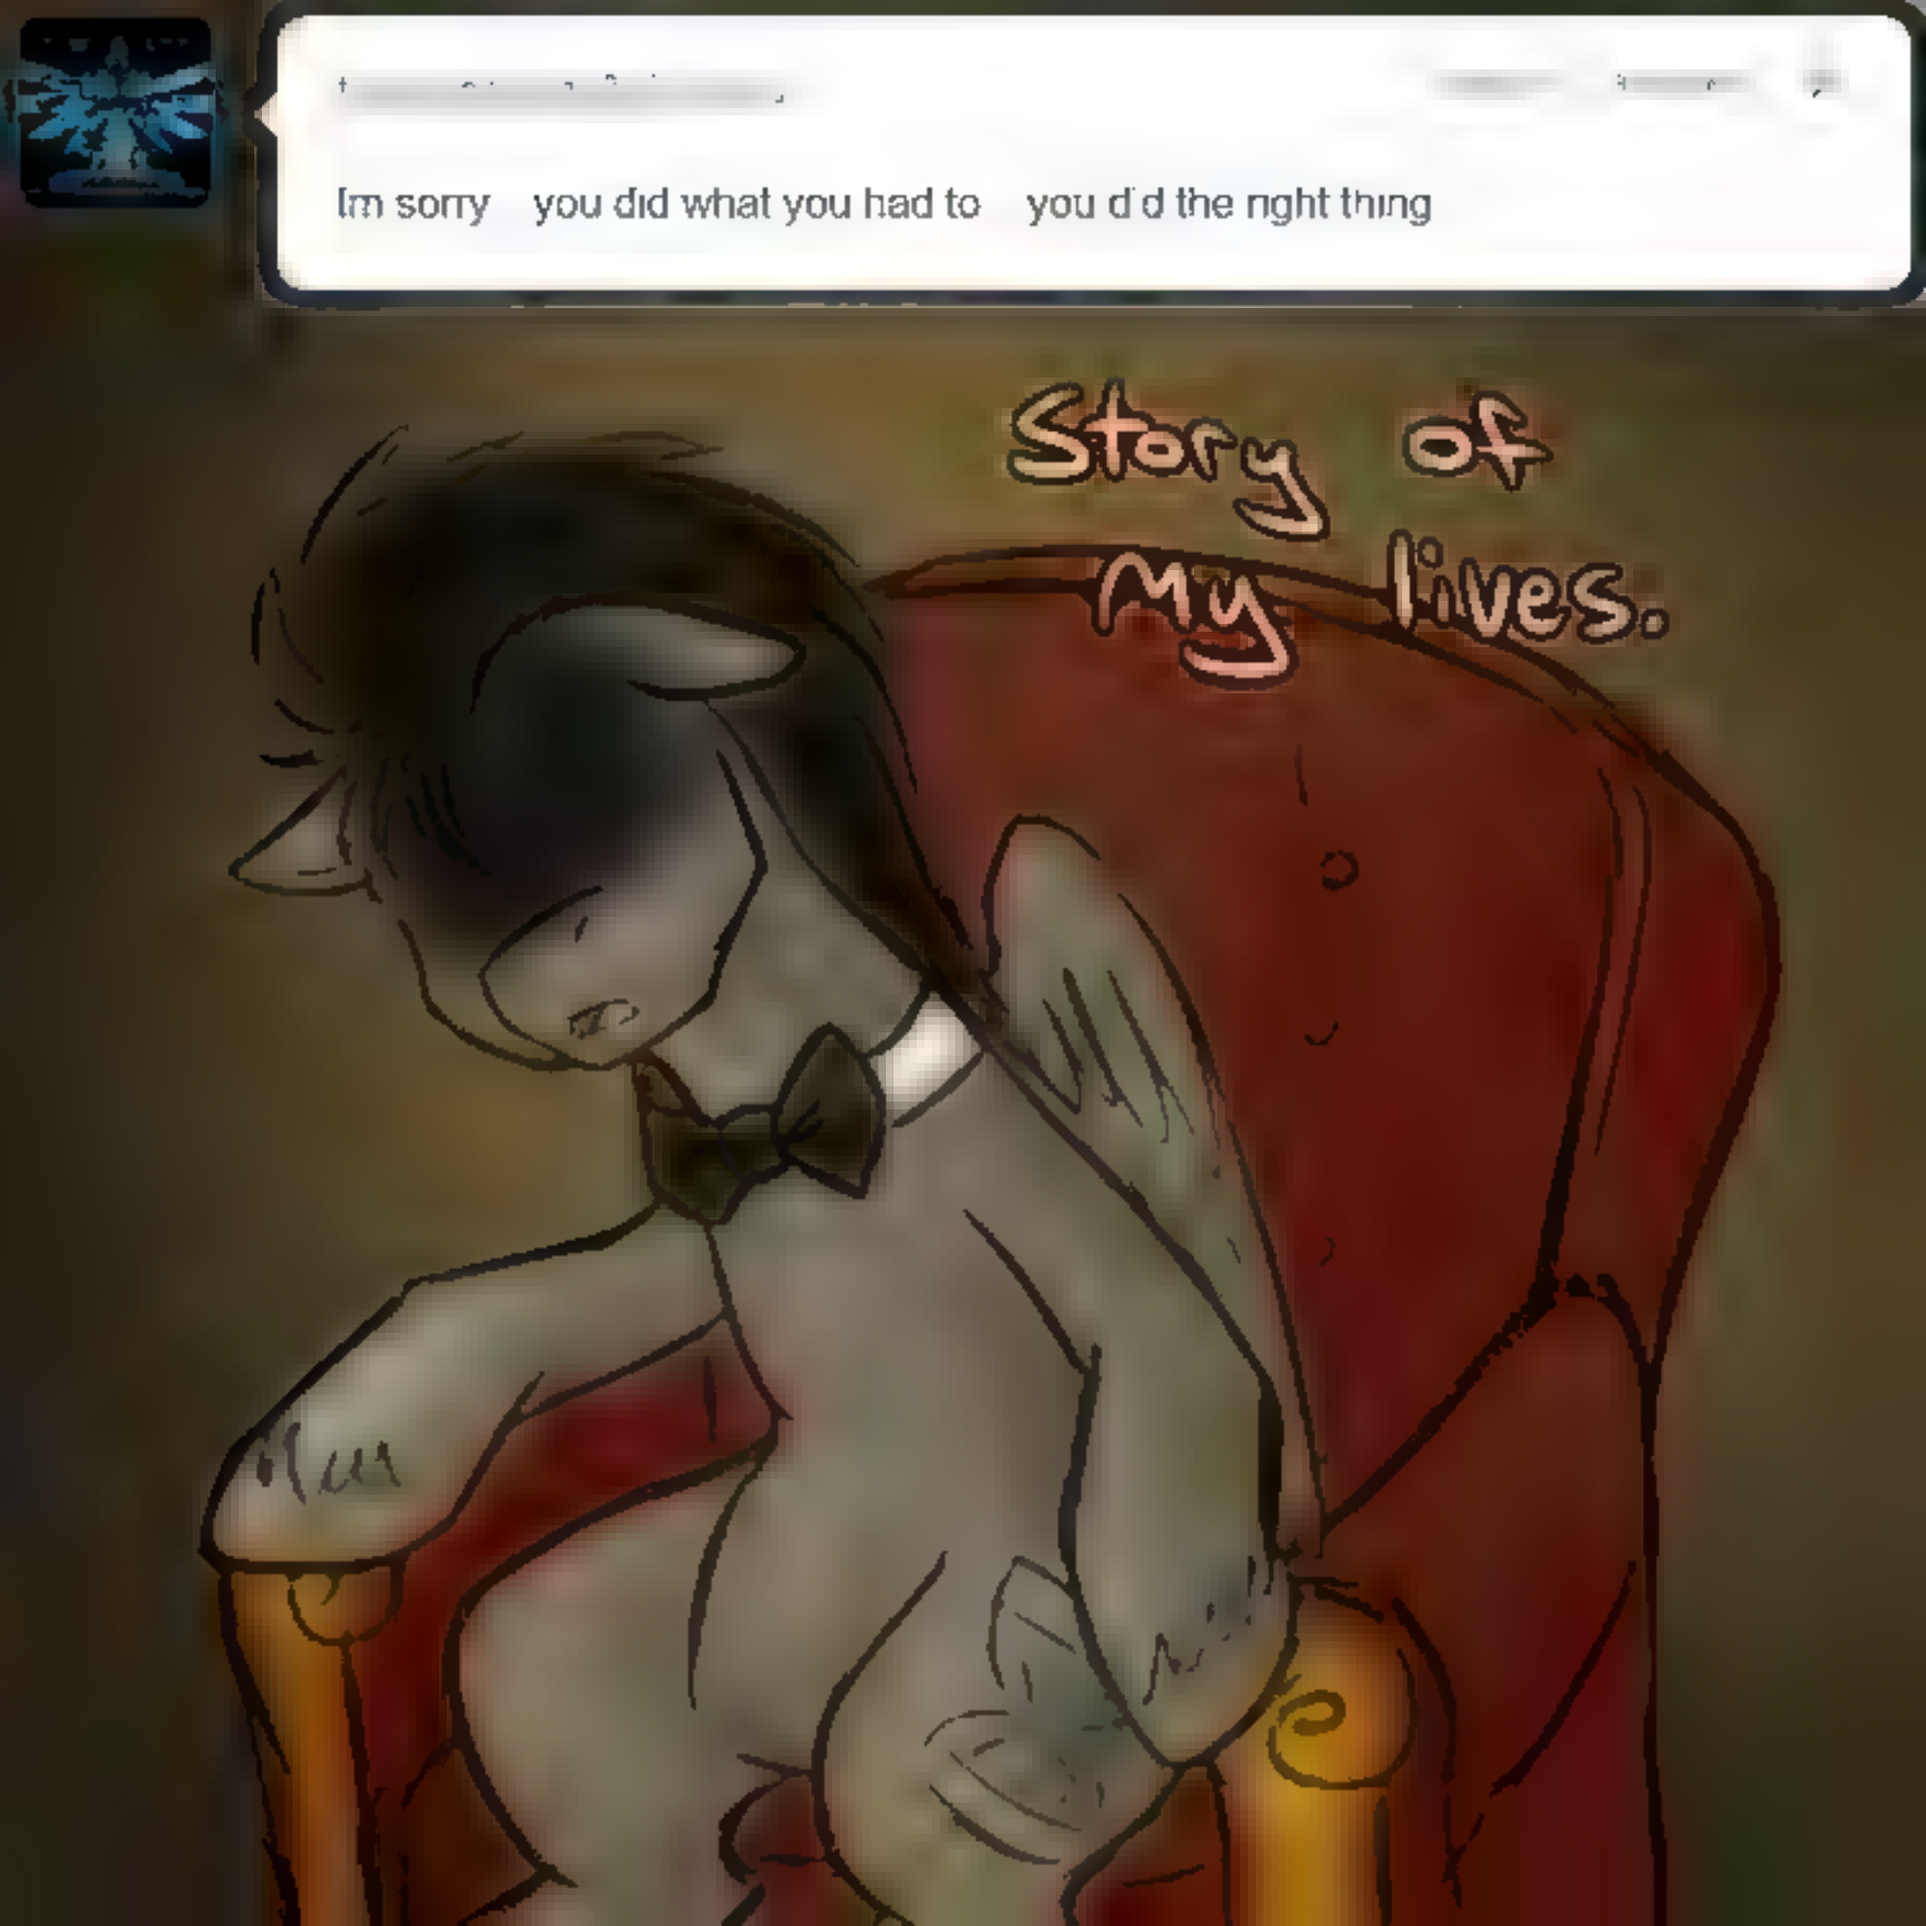
Run

Is the Masters control gone now? What exactly did he do to her?

When I did that,
it presented that
final message
through her...

Doctor I think the only think that can be done now is to leave Laura be for forever it seems It must ache you having to do this but as I previously stated, it's the only thing that can be done
You're right.

That's what you get Doctor you shouldn't have involved a mare like Laura I think it's better that you didn't see her again or cause her pain by just being around you
It always ends this way...



Im sorry you did what you had to you d'd the right thing
Story of my lives.

Doctor how is Laura doing, and do you have any plans to get back at The Master for this?

Doctor you are gonna have to stand up to the master, like now He is ruining your life We all will support and help you hell I will die if needed to put that bastard in his place

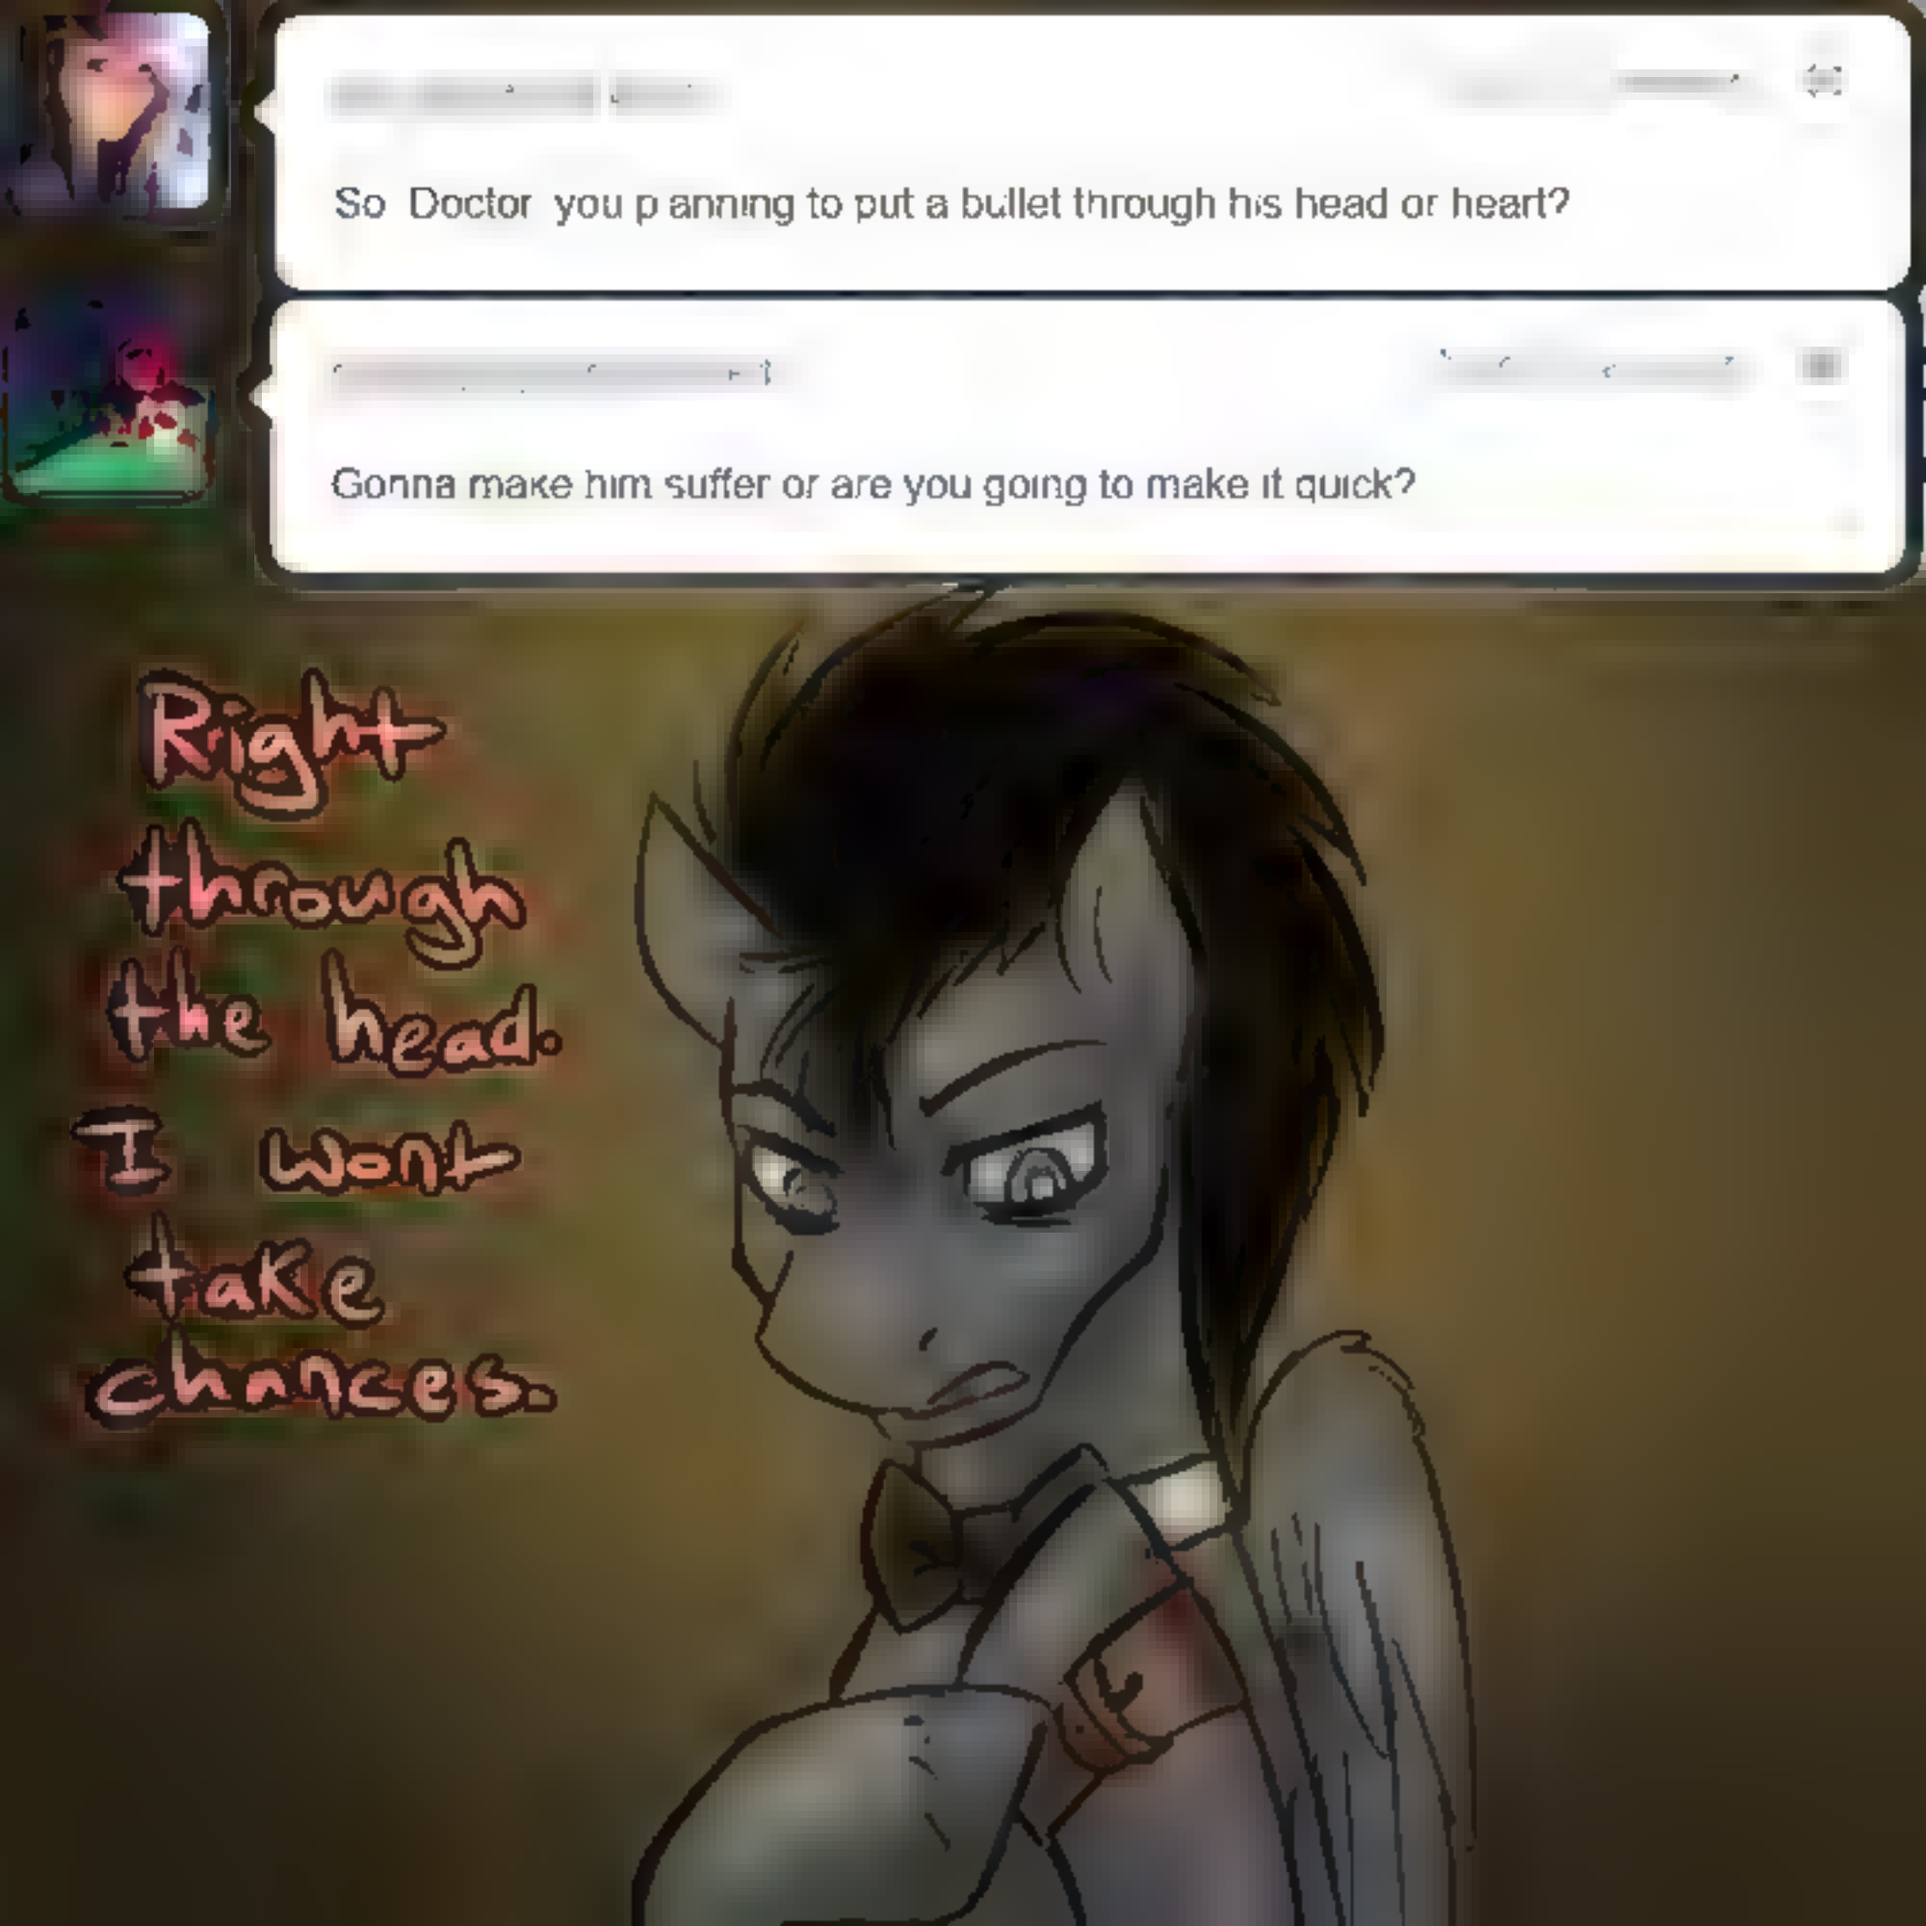
That's it man Game over The only way out is clear You must make the master see why he should fuck off Make him see that YOU ARE DONE WITH HIS SHIT Don't give me any of that coward BS too I know you know that this is the only way

Are you gonna take that crap from the Master screwing with your loved ones?! Stand up to him! I know it's hard but you'll have to eventually

You said Laura must forget. But will that really protect her from the Master even if the device is broken? There's only one way. The gun! You must put that bastard six feet under or everything you have and ever will have is doomed!

Come on doctor time to end it The master has been terronz ng the people you ove for far to long You still have the gun that DRD gave you Finish him

Time for you to get p ssed! The Master has gone too far! again In th s regenerat on you're supposed to be crazy and cynical right? Wel use that to hunt down the Master and KILL him! C'mon man! Timesawastin'!

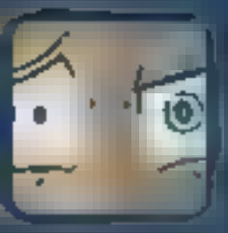


So Doctor you p anning to put a bullet through his head or heart?
Gonna make him suffer or are you going to make it quick?
Right through the head. I wont take chances.

You can't do this if you do you're just as bad as the master there's a ways another way! There has to be!
Go ahead Doc. kill The Master, become just like him, that'll solve your problems
No. I'm nothing like him.
You know why? Because the one thing he's never done is try to kill me.

Why use the gun Doctor? Why not torture him. Make him suffer, like he has done to you. Remember, he's hurt so many. He hurt marshmallow
WAIT! Why kill the Master when you can make HIM suffer? Suffer for everything he's put you through? Doesn't that sound better?
That was always his one flaw, obsessed with making me suffer, keeping me alive. It's because of that... He's never truly won. I won't make the same mistake.

Please Doctor! Don't do this! You are better than this!



Dont do this, Doctor, dont! You cant kill him it will only cause more pain and suffering!

You cant do this! You are the Doctor! You are better than this. You are a good person not a cold blooded killer What happened to the savior we used to know?

I do hope your not thinking of using that Because if you do, you'll no longer have any right to to the name you've taken

Are you sure that this is a good idea, Doctor? You're the man who abhors violence after all I know it's the Master, and I know he's gone way too far, but

Obviously you hadn't seen my UNIT days. I've fired guns and snapped necks without any hesitation.
Don't you DARE underestimate me.

Doc, how in the hel can you use a a gun with a FINGER TRIGGER?!?!

How does Sexy feel about what you're going to do?
Anantal Try to stop the Doctor! This can't possibly end well!
what the-
why did you stop flying?!
SILK

You damn well better listen to me right now or I'll leave you to rot in a forgotten Nebula!!
Stop being a piece of JUNK!!
BLINK

Do you think you can really do it?

Don't hesitate Doctor I know that deep down you hate the idea but the Master has gotten out of control All it takes is a quick pull of the trigger and you're done Allons-y Doctor

Doctor what would you do if you saw the Master going out with Octavia?

FEAR

You missed, coward...
W-who ARE you?!

Well I think The Master is mad no?

It's
only just
beginning
Doctor...

Do you hear the drums, Doctor?
I... Hesitated... I hesitated and I missed...! Ha...
